CION Ares Diversified Credit Fund ANNUAL REPORT DECEMBER 31, 2019

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report. If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund or your financial intermediary electronically by calling 888-729-4266 toll-free or by sending an e-mail request to CION Ares Diversified Credit Fund Investor Relations Department at ir@cioninvestments.com if you invest directly with the Fund, or by contacting your financial intermediary (such as a broker-dealer or bank) if you invest through your financial intermediary. Beginning on January 1, 2019, you may elect to receive all future reports in paper free of charge. You can inform the Fund or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports by calling 888-729-4266 toll-free or by sending an e-mail request to CION Ares Diversified Credit Fund Investor Relations Department at ir@cioninvestments.com if you invest directly with the Fund, or by contacting your financial intermediary (such as a broker-dealer or bank) if you invest through your financial intermediary. Beginning on January 1, 2019, you may elect to receive all future reports in paper free of charge. You can inform the Fund or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports by calling 888-729-4266 toll-free or by sending an e-mail request to CION Ares Diversified Credit Fund Investor Relations Department at ir@cioninvest

CION Ares Diversified Credit Fund

Letter to Shareholders

December 31, 2019

Fellow Shareholders,

We are pleased to present the semi-annual report for the CION Ares Diversified Credit Fund (the "Fund"), for the period ending December 31, 2019.

We are also proud to report on the growth of the Fund, having reached \$695 million in total managed assets with a current yield of 7.2% as of December 31, 2019.¹ As of period-end, the Fund had 370 total investments, spread across more than 20 unique industries. Floating rate instruments accounted for 93% of the Fund and approximately 50% of the Fund was deployed in investments directly originated by the investment advisor. The Fund has continued to gain traction with investors, and we are pleased to announce that the Fund has now launched on multiple platforms nationwide, which has led to strong asset growth.

Annual Report 2019

Investment Philosophy and Process

The Fund remains focused on seeking to deliver attractive risk-adjusted returns for our shareholders across market cycles by utilizing a flexible strategy to invest in a diversified pool of liquid and illiquid credit instruments. We believe the optimal investment strategy for non-investment grade credit is an actively managed portfolio that encompasses a broad spectrum of credit asset classes including high yield bonds, leveraged loans, structured credit, real estate debt, and direct lending in the United States and Europe. We believe unconstrained flexibility within a single portfolio affords investors an opportunity to capitalize on inefficiencies and dislocations across the credit universe and capture the best relative value.

The process by which the Fund's investments are selected is rigorous. The Fund's Advisor, CION Ares Management ("CAM" or the "Advisor"), leveraging the resources of the broader Ares platform, conducts ongoing proprietary analysis at the asset-class level to compare current market conditions with historical and industry-level precedents to examine the rate environment, correlation to public markets, and local/regional risks. This information is brought before the 15-member investment allocation committee in semimonthly meetings, where senior members in each of the underlying asset classes within the Ares Credit Group share their observations with the Advisor's portfolio managers.

Investment Environment²

Capital markets continued to rally through the fourth quarter of 2019 due to stable macroeconomic data and corporate fundamental trends, combined with cooling trade tensions and accommodative central bank policy. Positive economic data supported market sentiment as U.S. non-manufacturing Purchasing Managers Index (PMI) rebounded in November while the labor market continued to show signs of strength. Earnings season surprised to the upside as 75% of the companies in the S&P 500 reported a positive earnings per share (EPS) surprise. Investors reacted favorably to trade-related progress and as a result, the S&P 500 reached all-time highs on multiple occasions following progress towards a "phase one" trade deal and the signing of the United States Mexico Canada Agreement ("USMCA"), a refresh of the 25-year old North American Free Trade Agreement ("NAFTA"). Central bank policy remained constructive for risk assets as the Federal Reserve cut rates by 25 basis points in November while the European Central Bank resumed its Corporate Sector Purchase Programme.

From a performance standpoint, U.S. leveraged credit markets ended 2019 on a high note as high yield bonds returned 2.9% while bank loans returned 1.6% for the month of December. Notably, after lagging higher quality credit for the majority of the year, returns were driven by lower rated assets and cyclical sectors owing to a risk rally which occurred late in the quarter. Entering the final month of the year at historically wide levels on a spread basis, CCC high yield and bank loans returned 5.6% and 3.4%, respectively. Specific to the high yield market, the Energy sector rebounded and returned 5.6% in December, bringing quarter-to-date returns to 2.9%. CLO debt and equity generated strong returns as well, behind a positive technical environment following the dislocation during the summer months. Leveraged credit markets outperformed traditional high-grade credit, which returned 0.2% in the fourth quarter.

In Europe, high yield performance during December cemented the strong 2019 performance rally, as the high yield market returned 1.1%, with full year 2019 performance notching 11.4%. The overall European high yield index spread tightened by 40 bps to 325 bps in December. Year-over-year, this represents spread tightening of 198 bps. Dispersion in performance between double Bs and single Bs continued with demand from non-traditional high yield investors driving this trend. On the macroeconomic front, investors have been concerned about the anemic growth in the region, with the risk of recession

December 31, 2019

looming for Europe's largest economy. However, Germany's industrial production posted an encouraging increase of 1.1% in November, which hopefully will mark a rebound for the country's beleaguered manufacturing sector. On the back of this improved economic data, German bund yields have begun to rise, narrowing the gap with U.S. Treasuries and driving many bonds back into positive yielding territory. Overall, investors in Europe are positioned for a move away from negative rates as the economy bottoms-out and begins a modest recovery.

The new year kicked off with equity markets touching fresh all-time highs as an economy on solid footing, accommodative central banks, and positive news on U.S.-China trade supported investor sentiment. Despite a brief pause in the market rally due to elevated tensions between the U.S. and Iran, equity and credit markets have continued to demonstrate strong performance thus far in 2020. Specific to the Fund, we remain strategically focused on high-quality, floating rate assets and will continue to increase our exposure to directly originated loans in the U.S. and Europe given the yield premium in those markets today. With CLO debt and equity making a swift recovery in the last two months of 2019, we will look to harvest profits and swap into higher quality paper over the near-term. Owing to its flexible investment strategy, we believe the Fund offers a compelling combination of yield, diversification, and downside protection. We maintain strong conviction in the current portfolio positioning and believe the Fund is well positioned to generate attractive risk-adjusted returns going forward.

Summary

The third and fourth quarters of 2019 were marked by increasing recession fears, followed by a return to optimism as the Fed articulated its intention to cut rates in order to keep the economy expanding, albeit at a slower rate. This, in combination with the Fed's injection of liquidity into the repo market, supported investor sentiment and led to an extended broad market rally. Further reassuring investors, the U.S. Treasury curve "un-inverted" in early November as 3-month and 10-year Treasury yields assumed a more normal shape. Year-end 2019 marked record equity market performance and the longest historical bull market (129 months).

Yields remain compressed and as this trend is expected to continue, we believe investors continue to reevaluate their portfolios in an effort to identify sources of yield within the credit markets. Correlation across asset classes has increased, which underscores the value of certain asset types that can provide diversification. Against this backdrop, we believe the Fund's strategy, driven by our ability to dynamically allocate capital across credit sectors and geographies, is well situated to seek attractive risk-adjusted returns for our shareholders. We are pleased with the ongoing construction of the Fund's diversified portfolio as well as the Fund's performance, and we look forward to the three-year anniversary of the Fund in late January. Looking ahead to the beginning of a new decade, our Advisor will continue to leverage its position as a global leader in the liquid and illiquid credit markets to identify attractive investment opportunities in line with the stated objective of the Fund.

FUND OVERVIEW

CION Ares Diversified Credit Fund (CADC) is a diversified, unlisted closed-end management investment company registered under the 1940 Act as an interval fund. The Fund will seek to capitalize on market inefficiencies and relative value opportunities by dynamically allocating a portfolio of directly originated loans, secured floating and fixed rate syndicated loans, corporate bonds, asset-backed securities, commercial real estate loans and other types of credit instruments which, under normal circumstances, will represent at least 80% of the Fund's assets.

ABOUT CION INVESTMENTS

CION Investments is a leading manager of investment solutions designed to redefine the way individual investors can build their portfolios and help meet their long-term investment goals. With more than 30 years of experience in the alternative asset management industry, CION strives to level the playing field. CION currently manages CION Investment Corporation, a leading nontraded BDC, and sponsors, through CION Ares Management, CION Ares Diversified Credit Fund, a globally diversified interval fund.

ABOUT ARES MANAGEMENT

Ares Management Corporation (NYSE: ARES) is a leading global alternative investment manager operating three integrated businesses across Credit, Private Equity and Real Estate. Ares Management's investment groups collaborate to deliver innovative investment solutions and consistent and attractive investment returns for fund investors throughout market cycles. Ares Management's global platform had \$149 billion of assets under management as of December 31, 2019 with over 1,200 employees in over 20 offices in more than 10 countries. Please visit www.aresmgmt.com for additional information.

RISK DISCLOSURES & GLOSSARY

Risks and limitations include, but are not limited to, the following: investment instruments may be susceptible to economic downturns; most of the underlying credit instruments are rated below investment grade and considered speculative; there is no guarantee all shares can be repurchased; the Fund's business and operations may be impacted by fluctuations in the capital markets; the Fund is a diversified, closed-end investment company with limited operating history; diversification does not eliminate the risk of investment losses

Sharpe Ratio — a risk-adjusted measure that measures reward per unit of risk. The higher the Sharpe Ratio, the better. The numerator is the difference between a portfolio's return and the return of a risk-free instrument. The denominator is the portfolio's standard deviation.

Standard Deviation — a widely used measure of an investment's performance volatility. Standard deviation shows how much variation from the mean exists with a larger number indicating the data points are more spread out over a larger range of values.

¹ Monthly Distributions — There is no assurance monthly distributions paid by the fund will be maintained at the targeted level or paid at all.

² Current Distribution Rate — Current distribution rate is expressed as a percentage equal to the projected annualized distribution amount (which is calculated by annualizing the current cash distribution per share without compounding), divided by the current net asset value. The current distribution rate shown may be rounded.

A portion of distributions may be a direct result of expense support payments provided by CION Ares Management, LLC (CAM), which are subject to repayment by CADC within three years. The purpose of this arrangement is to ensure that CADC bears an appropriate level of expenses. Any such distributions may not be entirely based on investment performance and can only be sustained if positive investment performance is achieved in future periods and/or CAM continues to make such expense support payments. Future repayments will reduce cash otherwise potentially available for distributions. There can be no assurance that such performance will be achieved in order to sustain these distributions. CAM has no obligation to provide expense support payments in future periods.

CADC may fund distributions from unlimited amounts of offering proceeds or borrowings, which may constitute a return of capital, as well as net income from operations, capital and non-capital gains from the sale of assets, dividends or distributions from equity investments and expense support payments from CAM, which are subject to repayment. For the year ending October 31, 2019, distributions were paid from taxable income and did not include a return of capital for tax purposes. It is not anticipated that the current distribution rate will contain a return of capital. If expense support payments from CAM were not provided, some or all of the distributions may have been a return of capital which would reduce the available capital for investment. The sources of distributions may vary periodically. Please refer to the semi-annual or annual reports filed with the SEC for the sources of distributions.

		5,510,966			

Footnotes:

(a) Investment holdings in foreign currencies are converted to U.S. Dollars using period end spot rates. All investments are in United States enterprises unless otherwise noted.

(b) Interest rates on floating rate term loans adjust periodically based upon a predetermined schedule. Stated interest rates in this schedule represents the "all-in" rate as of December 31, 2019.

(c) variable rate coupon rate shown as of December 31, 2019.

(d) All of CION Ares Diversified Credit Fund (the "Fund") Senior Loans, Subordinated Loans, Collateralized Loan Obligations, Common Stocks, Corporate Bonds issued as 144A, Preferred Stock, Private Asset Backed Debt, Real Estate Debt, and Warrants, which as of December 31, 2019 represented 120.1% of the Fund's net assets or 92.2% of the Fund's total assets, are subject to legal restrictions on sales.

(e) Investments whose values were determined using significant unobservable inputs (Level 3) (See Note 3 of the Notes to Financial Statements).

(f) These assets are held at CADEX Credit Financing, LLC, a wholly owned special purpose financing vehicle, and are pledged as collateral for a secured revolving credit facility (see "Note 1 — Organization").

(g) As of December 31, 2019, the Fund had entered into the following commitments to fund various revolving and delayed draw senior secured and subordinated loans. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing these loans and there can be no assurance that such conditions will be satisfied. See Note 2 of the Notes to Financial Statements for further information on revolving and delayed draw loan commitments.

(h) Security valued at fair value using methods determined in good faith by or under the direction of the board of trustees.

(i) This position or a portion of this position represents an unsettled loan purchase. The interest rate will be determined at the time of settlement and will be based upon the London-Interbank Offered Rate ("LIBOR" or "L") or the applicable LIBOR floor plus a spread which was determined at the time of purchase.

(j) Payment-In-Kind security ("PIK"), which may pay interest/dividends in additional par/shares.

(k) When-Issued or delayed delivery security based on typical market settlement convention for such security.

(I) Collateralized Loan Obligations are all issued as 144A securities.

(m) Non-income producing security as of December 31, 2019.

(n) The Fund sold a participating interest of \$500,000 of aggregate principal amount of the portfolio company's first lien revolver. As the transaction did not qualify as a "true sale" in accordance with U.S. generally accepted accounting principles, the Fund recorded a corresponding \$314,286 secured borrowing for the \$314,286 that has been funded thus far.

Total Swap Agreements

(1) If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying investments comprising the referenced index or (ii) receive a net settlement amount in the form of cash or investments equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying investments comprising the referenced index.

\$ (402.417)

\$

(164.665)

\$

(237.752)

(2) The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

(3) The quoted market prices and resulting values for credit default swap agreements on credit indices serve as an indicator of the current status of the payment/performance risk and represent the expected amount paid or received for the credit derivative had the notional amount of the swap agreement been closed/sold as of year-end. Increasing values (buy protection) or decreasing values (sell protection), when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood of risk of default or other credit event occurring as defined under the terms of the agreement.

The following is a summary of fair values of investments in derivative contracts disclosed in the Fund's Statement of Assets and Liabilities, as of December 31, 2019:

	Assets	Liabilities
Swap Credit Contracts	\$ 69,970	\$ 429,268
Forward Foreign Currency Contracts	373,308	1,067,945

The following is a summary of the Fund's realized gain and/or (loss) and change in net unrealized gain and/or (loss) on derivative investments recognized in the Fund's Statement of Operations categorized by primary risk exposure as of December 31, 2019:

Notes to Consolidated Financial Statements

December 31, 2019

(1) Organization

CION Ares Diversified Credit Fund (the "Fund") is a diversified, closed-end management investment company that is registered under the Investment Company Act of 1940. The Fund is structured as an interval fund and continuously offers its shares. The Fund was organized as a Delaware statutory trust on June 21, 2016. CION Ares Management, LLC (the "Adviser") serves as the investment Adviser to the Fund and was registered as an investment adviser with the Securities and Exchange Commission ("SEC") under the Investment Advisers Act of 1940 (the "Advisers Act") on January 4, 2017. The Adviser is a joint venture between affiliates of Ares Management Corporation ("Ares") and CION Investment Group, LLC ("CION") and is controlled by Ares. The Adviser oversees the management of the Fund's activities and is responsible for making investment decisions for the Fund's portfolio.

On August 2, 2018, the Fund formed a wholly owned special purpose financing vehicle, CADEX Credit Financing, LLC (the "Financing Sub"), a Delaware limited liability company.

Investment Objective and Policies

The Fund's investment objective is to provide superior risk-adjusted returns across various market cycles by investing in a diversified portfolio of liquid and illiquid asset classes. The Fund seeks to capitalize on market inefficiencies and relative value opportunities throughout the entire global credit spectrum.

Fiscal Year End Change

On September 25, 2019, the Fund's board of trustees approved a change to the fiscal year end of the Fund from October 31 to December 31. Accordingly, the Fund's financial statements and related notes include information as and for the two month period ended December 31, 2019 and the year ended October 31, 2019.

(2) Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements have been prepared on an accrual basis of accounting in conformity with U.S. generally accepted accounting principles ("GAAP"), and includes the accounts of the Fund and its consolidated subsidiaries. The Fund is an investment company following accounting and reporting guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946, *Financial Services — Investment Companies*. The consolidated financial statements reflect all adjustments and reclassification, that, in the opinion of management, are necessary for the fair presentation of the results of operations and financial condition as of and for the

periods presented. All significant intercompany balances and transactions have been eliminated. The Adviser makes estimates and assumptions that affect the reported amounts and disclosures in the consolidated financial statements. Actual results may differ from those estimates and such differences may be material.

Investments Valuation

All investments in securities are recorded at their fair value. See Note 3 for more information on the Fund's valuation process.

Interest Income

Interest income is recorded on the accrual basis to the extent that such amounts are expected to be collected, and adjusted for accretion of discounts and amortization of premiums. The Fund may have investments that contain paymentin-kind ("PIK") provisions. The PIK interest, computed at the contractual rate specified, may be added to the principal balance and adjusted cost of the investments and recorded as interest income. The PIK interest for the period ended December 31, 2019 and year ended October 31, 2019 were \$179,247 and \$720,842 respectively, both were recorded as interest income.

Discounts and Premiums

Discounts and premiums on securities purchased are accreted/amortized over the life of the respective security using the effective interest method. The adjusted cost of investments represents the original cost adjusted for PIK interest, the accretion of discounts, and amortization of premiums.

Cash and Cash Equivalents

The Fund considers all highly liquid investments with original maturities of 90 days or less to be cash equivalents. The Fund's cash and cash equivalents are maintained with a major United States financial institution, which is a member of the Federal Deposit Insurance Corporation. While the Fund's current cash balance exceeds insurance limits, the risk of loss is remote.

Investment Transactions, Related Investment Income and Expenses

Investment transactions are accounted for on the trade date. Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, the Fund looks at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available are valued at fair value as determined in good faith by the Adviser in accordance with the Fund's valuation policy (the "Valuation Policy"). The

Annual Report 2019 56

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued)

December 31, 2019

Valuation Policy is reviewed and approved at least annually by the Fund's board of trustees (the "Board"). The Adviser has been authorized by the Board to utilize independent third-party pricing and valuation services to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12-month period (with certain de minimis exceptions) in accordance with the Valuation Policy and a consistently applied valuation process. As part of the valuation process for investments that do not have readily available market prices, the Adviser may take into account the following types of factors, if relevant, in determining the fair value of the Fund's investments: the enterprise value of a portfolio company (the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, changes in the interest rate environment and the credit markets, which may affect the price at which similar investments would trade in their principal markets and other relevant factors. When an external event such as a purchase transaction, public offering or

gains and losses are reported on the specific identification method. Expenses are recorded on the accrual basis as incurred.

Realized and unrealized gains and losses and net investment income, excluding class specific expenses are allocated daily to each class of shares based upon the relative proportion of net assets of each class. Differences in per share distributions by class are generally due to differences in class specific expenses.

Foreign Currency Transactions and Forward Foreign Currency Contracts

Amounts denominated in foreign currencies are translated into U.S. dollars on the following basis: (i) investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates effective on the date of valuation; and (ii) purchases and sales of investments and income and expense items denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates are translated.

The Fund does not isolate that portion of the results of operations resulting from the changes in foreign exchange rates on investments from fluctuations arising from changes in market prices of securities held. Such fluctuations are included subsequent equity sale occurs, the Adviser considers the pricing indicated by the external event to corroborate its valuation.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Fund's investments may fluctuate from period to period. Additionally, the fair value of the Fund's investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that the Fund may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If the Fund was required to liquidate a portfolio investment in a forced or liquidation sale, the Fund could realize significantly less than the value at which the Fund has recorded it. In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned.

See Note 3 for more information on the Fund's valuation process.

Interest income, adjusted for amortization of premiums and accretion of discounts on investments, is earned from settlement date and is recorded on the accrual basis. Realized within the net realized and unrealized gain (loss) on investments in the Consolidated Statement of Operations.

Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates of securities transactions, and the difference between the amounts of income and expense items recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign currency gains and losses arise from the changes in fair values of assets and liabilities, other than investments in securities at period end, resulting from changes in exchange rates.

Investments in foreign companies and securities of foreign governments may involve special risks and considerations not typically associated with investing in U.S. companies and securities of the U.S. government. These risks include, among other things, revaluation of currencies, less reliable information about issuers, different transaction clearance and settlement practices, and potential future adverse political and economic developments. Moreover, investments in foreign companies and securities of foreign governments and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies and the U.S. government.

The Fund may enter into forward foreign currency exchange contracts for operational purposes and to protect against

Annual Report 2019 57

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued)

December 31, 2019

adverse exchange rate fluctuations. A forward foreign currency contract is an agreement between the Fund and a counterparty to buy or sell a foreign currency at a specific exchange rate on a future date. The Fund may also enter into these contracts for purposes of increasing exposure to a foreign currency or to shift exposure to foreign currency fluctuations from one currency to another. The net U.S. dollar value of foreign currency underlying all contractual commitments held by the Fund and the resulting unrealized appreciation or depreciation are determined using foreign currency exchange rates from an independent pricing service. The Fund is subject to the credit risk that the other party will not complete the obligations of the contract. The fair values of the forward foreign currency exchange contracts are obtained from an independent pricing source.

Distributions to Shareholders

The Fund records distributions from net investment income daily. These distributions may be reinvested or paid monthly to shareholders. The Fund intends to pay common shareholders at least annually all or substantially all of its taxable income. The Fund intends to pay any capital gains distributions at least annually.

The Fund may make distributions, without limitation, from offering proceeds or borrowings, which may constitute a return of capital, as well as net investment income from operations, capital and non-capital gains from the sale of assets, and dividends or distributions from equity investments. Furthermore, a portion of the Fund's distributions during the period ended December 31, 2019 was derived from expense support payments made by the Adviser, which are subject to repayment by the Fund within three years. The purpose of such expense support payments is to ensure that the Fund bears an appropriate level of expenses. As such, the Fund's distributions may not be entirely based on investment performance and can only be sustained if positive investment performance is achieved in future periods and/or the Adviser continues to make such expense support payments. Any future repayments of expenses by the Fund will reduce cash otherwise potentially available for distributions. There can be no assurance that such performance will be achieved in order to sustain the current level of the Fund's distributions. After the expiration of the initial term of the Expense Support and Conditional Reimbursement Agreement (the "Agreement") on July 31, 2020, the Adviser has no obligation to make expense support payments in future periods. If the Adviser did not make any expense support payments or related capital contribution during such period, all or a portion of the Fund's distributions would have been a return of capital which would reduce the available capital for investment. The sources of the Fund's distributions may vary periodically. Please refer to the Financial Highlights table for the sources of distributions.

Commitments and Contingencies

In the normal course of business, the Fund's investment activities involve executions, settlement and financing of various transactions resulting in receivables from, and payables to, brokers, dealers and the Fund's custodian. These activities may expose the Fund to risk in the event that such parties are unable to fulfill contractual obligations. Management does not anticipate any material losses from counterparties with whom it conducts business. Consistent with standard business practice, the Fund enters into contracts that contain a variety of indemnifications, and is engaged from time to time in various legal actions. The maximum exposure of the Fund under these arrangements and activities is unknown. However, the Fund expects the risk of material loss to be remote.

Commitments to extend credit include loan proceeds the Fund is obligated to advance, such as delayed draws or revolving credit arrangements. Commitments generally have fixed expiration dates or other termination clauses. Unrealized gains or losses associated with unfunded commitments are recorded in the consolidated financial statements and reflected as an adjustment to the fair value of the related security in the Consolidated Schedule of Investments. The par amount of the unfunded commitments is not recognized by the Fund until it becomes funded. As of December 31, 2019, the Fund had unfunded commitments of \$80,202,407.

Income Taxes

The Fund intends to distribute all or substantially all of its taxable income and to comply with the other requirements of Subchapter M of the U.S. Internal Revenue Code of 1986, as amended, applicable to Regulated Investment Companies. Accordingly, no provision for U.S. federal income taxes is required.

The Fund may elect to incur an excise tax if it is deemed prudent by its board of trustees from a cash management perspective or in the best interest of shareholders due to other facts and circumstances. For the period ended December 31, 2019 and year ended October 31, 2019, the Fund incurred U.S. federal excise taxes of \$21,559 and \$129,000 respectively.

As of December 31, 2019, which is the end of the Fund's taxable year, the Fund had no uncertain tax positions that would require financial statement recognition, derecognition, or disclosure. The Fund files a U.S. federal income tax return annually after its fiscal year-end, which is subject to examination by the Internal Revenue Service for a period of three years from the date of filing.

Net investment income and net realized gains and losses may differ for financial statement and tax purposes because of temporary or permanent book/tax differences. These

Annual Report 2019 58

Notes to Consolidated Financial Statements (continued)

December 31, 2019

differences are primarily due to differing treatments for foreign currency gains and losses, excise taxes, pay down gains and losses and losses due to wash sales and qualified electing fund ("QEF") income and capital gains. To the extent these differences are permanent, reclassifications are made to the appropriate capital accounts in the fiscal period that the differences arise. On the Statement of Assets and Liabilities, the following reclassifications were made for the period ended December 31, 2019 and year ended October 31, 2019:

	Decer	nber 31, 2019	October 31, 2019				
Additional paid-in capital/(reduction)	\$	(21,559)	\$	(129,000)			
Distributable earnings accumulated gain /loss		21,559		129,000			

The characterization of distributions made during the fiscal period from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes. In addition, due to the timing of dividend distributions, the fiscal period in which amounts are distributed may differ from the fiscal period that the income or realized gains or losses were recorded by the Fund. The characterization of distributions paid during the period ended December 31, 2019 and fiscal years ended October 31, 2019 and October 31, 2018 were as follows:

	December 31, 2019		October 31, 2019	October 31, 2018
Ordinary income	\$	4,761,455	\$ 17,338,170	\$ 4,304,299
Capital gain		_	—	_
Return of capital		_	—	—

As of period end December 31, 2019 and year ended October 31, 2019, the components of accumulated earnings/(deficit) on a tax basis were as follows:

	Dece	December 31, 2019		tober 31, 2019
Undistributed ordinary income	\$	3,658,103	\$	3,866,027
Undistributed capital gains		_		—
Accumulated capital and other losses		_		_
Other undistributed ordinary losses		_		_
Net unrealized appreciation (depreciation)		3,563,540		(7,119,118)
Total accumulated earnings/(deficit)	\$	7,221,643	\$	(3,253,091)

ASC 740, Income Taxes, provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the financial statements. The Fund has evaluated the implications of ASC 740 for all open tax years and has determined there is no impact to the Fund's financial statements as of the period ended December 31, 2019. The Fund's federal and state income returns for which the applicable statutes of limitations have not expired remain subject to examination by the Internal Revenue Service and states department of revenue.

All penalties and interest associated with income taxes, if any, are included in other expenses in the Statement of Operations. There were no penalties and interest incurred by the Fund for the current fiscal year.

Deferred Debt Issuance Costs

Debt issuance costs are amortized over the life of the related debt instrument using the straight line method.

Recently Issued Accounting Pronouncements

In March 2017, the FASB issued ASU No. 2017-08, Receivables — Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. The amendments in the ASU shorten the amortization period for certain callable debt securities, held at a premium, to be amortized to the earliest call date. The ASU does not require an accounting change for securities held at a discount, which continue to be amortized to maturity. The ASU is effective for fiscal years and for interim periods within those fiscal years beginning after December 15, 2018. The Fund has adopted and applied ASU 2017-08 on a modified retrospective basis through a cumulativeeffect adjustment as of the beginning of the period of adoption. As a result of the adoption of ASU 2017-08, as of November 1, 2019, the amortized cost basis of investments was reduced and unrealized appreciation of investments was increased. The adoption of ASU 2017-08 had no impact on beginning net assets, the current period results from operations, or any prior period information presented in the financial statements.

(3) Investments

Fair Value Measurements

The Fund follows the provisions of ASC 820, *Fair Value Measurements and Disclosures* under U.S. GAAP, which among other matters, requires enhanced disclosures about investments that are measured and reported at fair value. This standard defines fair value and establishes a hierarchal disclosure framework, which prioritizes and ranks the level of market price observability used in measuring investments at fair value and expands disclosures about assets and liabilities

Annual Report 2019 59

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued)

December 31, 2019

measured at fair value. ASC 820 defines "fair value" as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The hierarchal disclosure framework establishes a three-tier hierarchy to maximize the use of observable data and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique.

Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available in the circumstances. The three tier hierarchy of inputs is summarized in the three broad levels listed below.

• Level 1 — Valuations based on quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

• Level 2 — Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data. The Adviser is responsible for all inputs and assumptions related to the pricing of securities. The Adviser has internal controls in place that support its reliance on information received from third-party pricing sources. As part of its internal controls, the Adviser obtains, reviews, and tests information to corroborate prices received from third-party pricing sources. For any security, if market or dealer quotations are not readily available, or if the Adviser determines that a quotation of a security does not represent a fair value, then the security is valued at a fair value as determined in good faith by the Adviser and will be classified as Level 3. In such instances, the Adviser will use valuation techniques consistent with the market or income approach to measure fair value and will give consideration to all factors which might reasonably affect the fair value.

The assets and liabilities classified as Level 3 (other than as described below in the following paragraph) are typically valued using two different valuation techniques. The first valuation technique is an analysis of the enterprise value ("EV") of the portfolio company. Enterprise value means the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time. The primary method for determining EV uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's EBITDA (generally defined as net income before net interest expense, income tax expense, depreciation and amortization). EBITDA multiples are typically determined based upon review of

• Level 3 — Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In addition to using the above inputs in investment valuations, the Fund continues to employ a valuation policy that is consistent with the provisions of ASC 820. Consistent with the Fund's valuation policy, it evaluates the source of inputs, including any markets in which the Fund's investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value. The Fund's valuation policy considers the fact that because there may not be a readily available market value for the investments in the Fund's portfolio, therefore, the fair value of the investments may be determined using unobservable inputs.

The assets and liabilities classified as Level 1 or Level 2 are typically valued based on quoted market prices, forward foreign exchange rates, dealer quotations or alternative pricing sources supported by observable inputs. The Adviser obtains prices from independent pricing services which generally utilize broker quotes and may use various other pricing

market comparable transactions and publicly traded comparable companies, if any. The Fund may also employ other valuation multiples to determine EV, such as revenues. The Fund may also use industry specific valuation analyses to determine enterprise value, such as capitalization rate analysis used in the real estate industry. The second method for determining EV uses a discounted cash flow analysis whereby future expected cash flows of the portfolio company are discounted to determine a present value using estimated discount rates (typically a weighted average cost of capital based on costs of debt and equity consistent with current market conditions). The EV analysis is performed to determine the value of equity investments, the value of debt investments in portfolio companies where the Fund has control or could gain control through an option or warrant security, and to determine if there is credit impairment for debt investments. If debt investments; however, in addition to the methods outlined above, other methods such as a liquidation or wind down analysis may be utilized to

Annual Report 2019 60

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued)

December 31, 2019

estimate enterprise value. The second valuation technique is a yield analysis, which is typically performed for non-credit impaired debt investments in portfolio companies where the Fund does not own a controlling equity position. To determine fair value using a yield analysis, a current price is imputed for the investment based upon an assessment of the expected market yield for a similarly structured investment with a similar level of risk. In the yield analysis, the Fund considers the current contractual interest rate, the maturity and other terms of the investment relative to risk of the company and the specific investment. A key determinant of risk, among other things, is the leverage through the investment relative to the enterprise value of the portfolio company. As debt investments held by the Fund are substantially illiquid with no active transaction market, the Fund depends on primary market data, including newly funded transactions, as well as secondary market data with respect to high yield debt instruments and syndicated loans, as inputs in determining the appropriate market yield, as applicable.

The fair value of CLOs is estimated based on various valuation models from third-party pricing services as well as internal models. The valuation models generally utilize discounted cash flows and take into consideration prepayment and loss assumptions, based on historical experience and projected performance, economic factors, the characteristics and condition of the underlying collateral, comparable yields for similar securities and recent trading activity. These securities are classified as Level 3.

Private asset-backed securities classified as Level 3 are typically valued using two different valuation techniques. The first valuation technique is an analysis of the forecasted cash flows of the security. The forecasted cash flows take into consideration prepayment and loss assumptions, based on historical experience and projected performance, economic factors, and the characteristics and condition of the underlying collateral. For equity securities, the projected cash flows are present valued using a market discount rate to determine the fair value. For debt securities, the analysis is used to determine if the borrower has the ability to repay its obligations. If it is determined that the borrower does have the ability to repay its obligations, the second valuation technique that is utilized is a yield analysis. To determine fair value using a yield analysis, a current price is imputed for the investment based upon an assessment of the expected market yield for a similarly structured investment with a similar level of risk. In the yield analysis, the Fund considers the current contractual interest rate, the maturity and other terms of the investment relative to risk of the borrower and the specific investment. As the debt investments are substantially illiquid with no active transaction market, the Fund depends on primary market data, including

newly funded transactions, as inputs in determining the appropriate market yield, as applicable.

The following is a summary of the inputs used as of December 31, 2019, in valuing the Fund's investments carried at fair value:

	Level 1 — Quoted Prices (\$)	Level 2 — Other Significant Observable Inputs (\$)	Level 3 — Significant Unobservable Inputs (\$)	Total (\$)
Senior Loans	_	175,811,622	336,700,275	512,511,897

Annual Report 2019 61

Notes to Consolidated Financial Statements (continued)

December 31, 2019

The following is a reconciliation of the Fund's investments in which significant unobservable inputs (Level 3) were used in determining fair value. For the period ended December 31, 2019:

	Senior Loans (\$)	Subordinated Loans (\$)	Collateralized Loan Obligations (\$)	Common Stocks (\$)	Preferred Stocks (\$)	Private Asset Backed Debt (\$)	Real Estate Debt (\$)	Warrants (\$)	Total (\$)
Balance as of October 31, 2019	304,643,351	1,144,245	113,403,587	710,736	234,681	9,296,436	5,436,899	4,814	434,874,749
Purchases ^(a)	34,608,136	6,290	10,278,910	100,000	_	446,528	74,068	464,270	44,586,723
Sales ^(b)	(7,938,551)	_	(12,288,155)	—	_	—	—	—	(20,226,706)
Net Realized and Unrealized Gains (Loss)	1,549,349	(1,534)	6,709,396	23,863	2,889	54,754	(1,012)	(1,792)	8,335,913
Accrued Discounts/ (premiums)	226,733	1,156	(2,798)	_	_	2,858	1,011	_	228,960
Transfers in to Level 3	12,002,071	_	_	_	_	_	_	_	12,002,071
Transfers out of Level 3	(8,390,814)	_	_	_	—	_	_	_	(8,390,814)
Balance as of December 31, 2019	336,700,275	1,150,157	118,100,940	834,599	237,570	9,800,576	5,510,966	467,292	472,802,375
Net Change in Unrealized appreciation/ (depreciation) from investments held at December 31, 2019	1,185,456	(1,534)	6,186,346	488,133	2,889	54,753	(1,011)	(1,792)	7,913,240

(a) Purchases include PIK interest and securities received from restructure.

(b) Sales include principal redemptions.

Investments were transferred into and out of Level 3 and out of and into Level 2 during the period ended December 31, 2019 due to changes in the quantity and quality of information obtained to support the fair value of each investment as assessed by the Adviser.

The following table summarizes the quantitative inputs and assumptions used for investments in securities at fair value categorized as Level 3 in the fair value hierarchy as of December 31, 2019.

	Fair Value (\$)	Valuation Technique		Range	Weighted Average
Assets Investment	s in securities				
Senior Loans	141,417	Other	Recent Transaction Price	\$ 97.65	\$ 97.65
Senior Loans	20,975,544	Broker Quotes and/or 3rd Party Pricing Services	N/A	N/A	N/A

	Fair Value (\$)	Valuation Technique	Unobservable Inputs	Range	Weighted Average
Senior Loans	315,583,314	Yield Analysis	Market Yield	4.86% - 17.50%	7.61%
Subordinated Loans	1,150,157	Yield Analysis	Market Yield	10.17% - 17.62%	11.17%
Collateralized Loan Obligation	3,213	Other	Estimated Liquidation Value	\$ 160 - \$2,556	\$ 2,118.77

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued)

December 31, 2019

	Fair Value (\$)	Valuation Technique	Unobservable Inputs	Range	Weighted Average
Private Asset- Backed Debt	1,297,748	Income (Other)	Constant Default Rate (CDR), Constant Prepayment Rate (CPR), Recovery Rate	8.2% - 21.50%, 0.0%- 3.0%, 0%	8.2% - 21.5%, 0.0% - 3.0%, 0%
Private Asset- Backed Debt	7,874,255	Income (Other)	CDR, CPR, Collection Rate, Recovery Rate	12.30%, 96.30%, 41.50%, 0%	12.30%, 96.30%, 41.50%, 0%
Real Estate Debt	5,510,967	Yield Analysis	Market Yield	13.99% - 20.00%	15.74%
Warrants	467,292	EV Market Multiple Analysis	EBITDA Multiple	7.50 x - 28.78x	8.63 x
Total Level 3 Investments	472,802,375				

Changes in market yields or discount rates, each in isolation, may change the fair value of certain of the investments. Generally, an increase in market yields or discount rates may result in a decrease in the fair value of certain of the investments.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the investments

Class C, and Class I shares became effective. On November 2, 2017, the Fund's registration statement offering Class L shares became effective. On November 15, 2018, the Fund's registration statement offering Class U shares became effective and on November 30, 2018 the Fund's registration statement offering Class W shares became effective. The maximum sales load imposed on purchases, maximum contingent deferred sales charges, shareholder servicing and/or distribution fees charged will vary depending on each share class.

Common share transactions were as follows:

Class A	For the Per Decembe		For the Year Ended October 31, 2019		
	Shares	Amount (\$)	Shares	Amount (\$)	
Common shares outstanding — beginning of period	2,138,352	54,379,584	1,469,586	37,359,676	
Common shares issued	182,797	4,688,880	1,154,918	29,509,300	
Reinvestment of distributions	7,179	184,889	41,637	1,067,687	

may fluctuate from period to period. Additionally, the fair value of the investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that the Fund may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If the Fund was required to liquidate a portfolio investment in a forced or liquidation sale, it could realize significantly less than the value at which the Fund has recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the values currently assigned.

(4) Common Stock

The Fund, pursuant to an exemptive order granted by the SEC on July 11, 2017, offers multiple classes of shares. On July 11, 2017, the Fund's registration statement offering Class A,

Ear the Period from

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued)

December 31, 2019

Share Repurchase Program

Beginning in the second quarter of 2017, the Fund began offering and currently intends to continue offering, the quarterly repurchase of shares in such amount as may be determined by the Fund's board of trustees in accordance with the Fund's fundamental policy to conduct repurchase offers for between 5%-25% of its outstanding shares each quarter.

There were no shares repurchased during the period ended December 31, 2019.

(5) Credit Facilities

Information about the Fund's senior securities as of December 31, 2019 and October 31, 2019 is shown in the following table. There were no senior securities outstanding as of October 31, 2018 or October 31, 2017.

Class and Period Ended	Total Amount Outstanding Exclusive of Treasury Securities ⁽¹⁾	Asset Coverage Per Unit ⁽²⁾ (\$)	Involuntary Liquidating Preference Per Unit ⁽³⁾	Average Market Value Per Unit ⁽⁴⁾
Revolving Credit Facility (Wells Fargo Bank, N.A.)				
December 31, 2019	19,053,614	5,382.52	—	N/A
October 31, 2019	19,396,773	3,846.84	—	N/A
Revolving Credit Facility (State Street Bank and Trust Company)				
December 31, 2019	110,386,661	5,382.52	—	N/A
October 31, 2019	144,356,650	3,846.84	_	N/A

(1) Total amount of each class of senior securities outstanding at principal value at the end of the period presented.

(2) The asset coverage ratio for a class of senior securities representing indebtedness is calculated as our consolidated total assets, less all liabilities and indebtedness not represented by senior securities, divided by total senior securities representing indebtedness. This asset coverage ratio is multiplied by \$1,000 to determine the "Asset Coverage Per Unit".

(3) The amount to which such class of senior security would be entitled upon our involuntary liquidation in preference to any security junior to it. The "—" in this column indicates that the SEC expressly does not require this information to be disclosed for certain types of senior securities.

(4) Not applicable to senior securities outstanding as of period end.

Wells Credit Facility

The Fund's consolidated subsidiary, CADEX Credit Financing, LLC ("Financing Sub"), is party to a revolving funding facility (as amended, the "Wells Credit Facility"), which allows the Financing Sub to borrow up to \$100 million at any one time outstanding. The Wells Credit Facility is secured by all of the assets held by, and the membership interest in, Financing Sub. The end of the reinvestment period and the stated maturity date for the Wells Credit Facility are October 31, 2022 and October 31, 2024, respectively. Amounts available to borrow under the Wells Credit Facility are subject to a borrowing base that applies different advance rates to different types of assets held by the Financing Sub. The Financing Sub is also subject to limitations with respect to the loans securing the Wells Credit Facility, including restrictions on loan size, borrower domicile, payment frequency and status, collateral interests, and loans with fixed rates, as well as restrictions on portfolio company leverage, which may also affect the borrowing base and therefore amounts available to borrow. The Fund and the Financing Sub are also required to comply with various covenants, reporting

requirements and other customary requirements for similar facilities. These covenants are subject to important limitations and exceptions that are described in the agreements governing the Wells Credit Facility.

As of December 31, 2019, there was \$19,053,614 outstanding under the Wells Credit Facility. The interest rate charged under the Wells Credit Facility is generally based on an applicable LIBOR rate plus spread ranging from 1.75% to 2.15%, as defined in the agreements governing the Wells Credit Facility. Unused portions of the Wells Credit Facility accrue a commitment fee equal to an annual rate between 0.50% and 1.50%, depending on the usage. The fair value of the Financing Sub's borrowings under the Wells Credit Facility approximates the carrying amount presented in the accompanying Consolidated Statement of Assets and Liabilities at cost for the remaining maturity for which the Financing Sub has determined would be categorized as Level 2 in the fair value hierarchy.

For the period ended December 31, 2019 the components of interest and unused commitment fees expense, average stated interest rates (i.e., rate in effect plus the spread) and average

Annual Report 2019 65

outstanding balance for the Wells Credit Facility were as follows:

	For the Period Ended December 31, 2019 (\$)	For the Year Ended October 31, 2019 (\$)
Stated interest expense	96,164	258,304
Unused commitment fees	68,525	201,379
Total interest and credit facility fees expense	164,689	459,683
Annualized average stated interest rate	3.01%	2.15%
Average outstanding	19,203,665	13,194,231

Consolidated Statement of Assets and Liabilities at cost for the remaining maturity for which the Fund has determined would be categorized as Level 2 in the fair value hierarchy.

For the period ended December 31, 2019 the components of interest and unused commitment fees expense, average stated interest rates (i.e., rate in effect plus the spread) and average outstanding balance for the State Street Credit Facility were as follows:

	For the Period Ended December 31, 2019 (\$)	For the Year Ended October 31, 2019 (\$)
tated interest expense	456,603	1,655,472

balance		
Amortization of debt	44.212	232.296

State Street Credit Facility

The Fund is a party to a senior secured revolving credit facility (as amended, the "State Street Credit Facility"), which allows for the Fund to borrow up to \$150 million at any one time outstanding. The State Street Credit Facility maturity date is July 8, 2021. Under the State Street Credit Facility, the Fund is required to comply with various covenants, reporting requirements and other customary requirements for similar revolving credit facilities, including, without limitation, covenants related to: (a) limitations on the incurrence of additional indebtedness and liens, (b) limitations on certain restricted payments, (c) maintaining a ratio of total assets (less total liabilities other than indebtedness) to total indebtedness of the Fund and its consolidated subsidiaries (subject to certain exceptions) of not less than 3:1.0. These covenants are subject to important limitations and exceptions that are described in the documents governing the State Street Credit Facility. Amounts available to borrow under the State Street Credit Facility (and the incurrence of certain other permitted debt) are also subject to compliance with a borrowing base that applies different advance rates to different types of assets in the Fund's portfolio that are pledged as collateral.

As of December 31, 2019, there was \$110,386,661 outstanding under the State Street Credit Facility. The interest rate charged on the State Street Credit Facility is based on an applicable LIBOR rate plus 0.95% (as defined in the agreements governing the State Street Credit Facility). Unused portions of the State Street Credit Facility accrue a commitment fee equal to 0.20%. The fair value of the Fund's borrowings under the State Street Credit Facility approximates the carrying amount presented in the accompanying

Unused commitment fees	9,017	23,777
Total interest and credit facility fees expense	465,620	1,679,249
Annualized average stated interest rate	2.25%	3.11%
Average outstanding balance	123,391,754	108,492,186
Amortization of debt	27.830	146.221

Under the Investment Company Act, the Fund is not permitted to incur indebtedness, including through the issuance of debt securities, unless immediately thereafter the Fund will have an asset coverage of at least 300%. In general, the term "asset coverage" for this purpose means the ratio which the value of the total assets of the Fund, less all liabilities and indebtedness not represented by senior securities, bears to the aggregate amount of senior securities representing indebtedness of the Fund. In addition, the Fund may be limited in its ability to declare any cash distribution on its capital stock or purchase its capital stock unless, at the time of such declaration or purchase, the Fund has an asset coverage (on its indebtedness) of at least 300% after deducting the amount of such distribution or purchase price, as applicable. For non-public indebtedness issued by the Fund (for example, the Wells Credit Facility and the State Street Credit Facility), the Fund may be able to continue to pay distributions on its capital stock or purchase its capital stock even if the asset coverage ratio on its indebtedness falls below 300%. As of December 31, 2019, the Fund's asset coverage was 539%.

(6) Investment Advisory and Other Agreements

The Adviser is registered as an investment adviser under the Advisers Act, as amended. The Adviser is an affiliate of Ares and leverages Ares' entire investment platform and benefits

Annual Report 2019 66

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued)

December 31, 2019

from the significant capital markets, trading and research expertise of all of Ares' investment professionals.

Pursuant to the investment advisory agreement, dated December 6, 2016 (the "Investment Advisory Agreement") (subsequently amended and restated, which became effective November 30, 2018), by and between the Fund and the Adviser, the Adviser provides certain investment advisory and administrative services to the Fund and in consideration of the advisory services provided, the Adviser is entitled to a fee consisting of two components — a base management fee (the "Management Fee") and an incentive fee (the "Incentive Fee"). Pursuant to the investment sub-advisory agreement, dated as of December 6, 2016 (the "Investment Sub-Advisory Agreement"), by and between the Adviser and the Fund, the Adviser pays the Ares Capital Management II LLC (the "Sub-Adviser") 40% of the Management Fee and Incentive Fee actually received and retained and not otherwise used to support expenses.

The Adviser provides certain investment advisory and administrative services to the Fund pursuant to the Investment Advisory Agreement. Pursuant to its Investment Advisory Agreement, the Fund has agreed to pay the Adviser the Management Fee at an annual rate of 1.25% of the average daily value of the Fund's total assets of the Fund (including any assets attributable to any preferred shares that may be issued or to indebtedness) minus the Fund's liabilities other than liabilities relating to indebtedness. The management fees incurred by the Fund for the period ended December 31, 2019 and year ended October 31, 2019 were \$1,365,363 and \$4,757,628 respectively.

The Incentive Fee is calculated and payable quarterly in arrears based upon the Fund's "pre-incentive fee net investment income" for the immediately preceding quarter, and is subject to a hurdle rate, expressed as a rate of return on the Fund's "adjusted capital," equal to 1.50% per quarter (or an annualized hurdle rate of 6.00%), subject to a "catch-up" feature. For this purpose, "pre-incentive fee net investment income" means interest income, dividend income and any other income accrued during the calendar quarter, minus the Fund's operating expenses for the quarter and taking into account the Expense Support and Conditional Reimbursement Agreement (as defined below). For such purposes, the Fund's operating expenses will include the Management Fee, expenses reimbursed to the Adviser under the administration agreement, dated as of December 6, 2016 (the "Adviser Administrative Agreement"), by and between the Fund and the Adviser, and any interest expense and distributions paid on

any issued and outstanding preferred shares, but will exclude the Incentive Fee. "Adjusted Capital" means the cumulative gross proceeds received by the Fund from the sale of the Fund's shares (including pursuant to the Fund's DRIP (as defined below), reduced by amounts paid in connection with purchases of the Fund's shares pursuant to the Fund's share repurchase program and further reduced by distribution representing a return of capital.

The "catch-up" provision is intended to provide the Adviser with an incentive fee of 15% on all of the Fund's pre-incentive fee net investment income when the Fund's pre-incentive fee net investment income reaches 1.765% of Adjusted Capital in any calendar quarter. During the period ended December 31, 2019 there were no incentive fees incurred.

The Adviser is obligated to pay expenses associated with providing the investment services stated in the Investment Advisory Agreement and Investment Sub-Advisory Agreement, including expenses associated with office space for their officers and employees, investment and economic research, trading and investment management of the Fund.

The Adviser and the Fund have entered into the second amended and restated expense support and conditional reimbursement agreement (the "Expense Support and Conditional Reimbursement Agreement") under which the Adviser has agreed contractually at their discretion, for a one year period ending July 31, 2020 to reimburse the Fund's initial organizational and offering costs, as well as the Fund's operating expenses to the extent that aggregate distributions made to each Class' shareholders during the applicable quarter exceed Available Operating Funds (as defined below). Additionally, during the term of the Expense Support and Conditional Reimbursement Agreement, the Adviser may reimburse the Fund's operating expenses to the extent that it otherwise deems appropriate in order to ensure that the Fund bears an appropriate level of expenses (each such payment, an "Expense Payment"). "Available Operating Funds" means the sum attributable to the applicable Class of (i) the Fund's net investment Fund taxable income (including net short-term capital gains reduced by net long term capital losses); (ii) the Fund's net capital gains (including the excess of net long-term capital gains over net short-term capital losses); and (iii) dividends and other distributions paid to or otherwise earned by the Fund on account of investments in portfolio companies (to the extend such amounts listed in clause (iii) are not included under clauses (i) and (ii) above).

Notes to Consolidated Financial Statements (continued)

December 31, 2019

In consideration of the Adviser's agreement to reimburse the Fund's operating expenses, the Fund has agreed to repay the Adviser in the amount of any Fund expenses reimbursed subject to the limitation that a reimbursement (an "Adviser Reimbursement") will be made only if and to the extent that (i) it is payable not more than three years from the last business day of the calendar quarter in which the applicable Expense Payment was made by the Adviser; (ii) the Adviser Reimbursement does not cause other fund operating expenses attributable to the applicable Class (on an annualized basis and net of any reimbursements received by the Fund during such fiscal year) during the applicable quarter to exceed the percentage of the Fund's average net assets attributable to common shares represented by other fund operating expenses allocable to the applicable Class (as defined below) (on an annualized basis) during the quarter in which the applicable Expense Payment from the Adviser was made; and (iii) the distributions per share declared by the Fund for the applicable class at the time of the applicable Expense Payment are less than the effective rate of distributions per share for the applicable class at the time the Adviser Reimbursement would

be paid. Other fund operating expenses is defined as, the Fund's total Operating Expenses (as defined below), excluding the Management Fees, the Incentive Fees, offering expenses, financing fees and costs, interest expense and extraordinary expenses. "Operating Expenses" means all operating costs and expenses incurred by the Fund, as determined in accordance with GAAP for investment companies. The Expense Support and Conditional Reimbursement Agreement will remain in effect at least until July 31, 2020, unless and until the Fund's board of trustees approves it's modifications or termination. The Agreement was renewed for another year on July 31, 2019. This agreement may be terminated only by the Fund's board of trustees on notice to the Adviser. For the period ended December 31, 2019, the Adviser has provided \$26,627 in expense support and incurred \$70,462 in expense support recoupment.

The table below presents a summary of all expenses supported by the Adviser for each of the following three month periods in which the Fund received expense support from the Adviser and the Adviser associated dates through which such expenses are eligible for reimbursement from the Fund.

(1) Other Fund Operating Expenses is defined as, the Fund's total Operating Expenses (as defined below), excluding the management fees and Incentive fees, offering expenses, financing fees and costs, interest expense and extraordinary expenses. "Operating Expenses" means all operating costs and expenses incurred by the Fund, as determined in accordance with generally accepted accounting principles for investment companies.

(2) The Annualized Distribution Rate per Share equals the projected annualized distribution amount which is calculated based on the average regular cash distributions per share that were declared during record dates in the applicable Expense Support Payment Quarter.

Pursuant to the administration agreement between the Fund and the Adviser ("Adviser Administration Agreement"), the Adviser furnishes the Fund with office equipment and clerical, bookkeeping and record keeping services at the Adviser's office facilities. Under the Adviser Administrative Agreement, the Fund is obligated to reimburse the Adviser, at cost, based upon the Fund's allocable portion of the Adviser's overhead and other expenses (including travel expenses) incurred by the Adviser in performing its obligations under the Adviser Administrative Agreement, including the Fund's allocable portion of the compensation, rent and other expenses of certain of its officers (including but not limited to the chief compliance officer, chief financial officer, chief accounting officer, general counsel, treasurer and assistant treasurer) and their respective staffs. The Adviser Administration Agreement may be terminated by either party without penalty upon 60 days' written notice to the other party. The total of such Pursuant to a transfer agent agreement between DST Systems, Inc. ("DST") and the Fund, DST performs transfer agency services for the Fund. DST maintains the shareholder accounting records for the Fund. The Fund pays DST for these services. The total of such expenses incurred for the period ended December 31, 2019 and year ended October 31, 2019 were \$70,000 and \$362,702 respectively.

Shareholder Service Expenses

The Fund has adopted a "Shareholder Services Plan" with respect to its Class A, Class C, and Class L Shares under which the Fund may compensate financial industry professionals for providing ongoing services in respect of clients with whom they have distributed shares of the Fund. Such services may include electronic processing of client orders, electronic fund transfers between clients and the Fund, account reconciliations with the Fund's transfer agent, facilitation expenses incurred for the period ended December 31, 2019 and year ended October 31, 2018 were \$250,000 and \$1,200,000 respectively.

Pursuant to an administration agreement between State Street Bank and Trust Company ("State Street") and the Fund, State Street performs, or oversees the performance of, certain of the Fund's required administrative services, which include, among other things, providing assistance in accounting, legal, compliance, operations, being responsible for the financial records that the Fund is required to maintain and preparing reports to the Fund's shareholders and reports filed with the SEC. In addition, State Street oversees the preparation and filing of the Fund's tax returns and generally oversees the payment of the Fund's expenses and the performance of administrative and professional services rendered to the Fund by others. The Fund pays State Street for these services. The total of such expenses incurred by the Fund for the period ended December 31, 2019 and year ended October 31, 2019 were \$58,292 and \$349,308 respectively. of electronic delivery to clients of Fund documentation, monitoring client accounts for back-up withholding and any other special tax reporting obligations, maintenance of books and records with respect to the foregoing, and such other information and liaison services as the Fund or the Adviser may reasonably request. Under the Shareholder Services Plan, the Fund, with respect to Class A, Class C, and Class L Shares, may incur expenses on an annual basis equal up to 0.25% of its average net assets attributable to Class A, Class C, and Class L Shares, respectively.

Distribution Plan

The Fund, with respect to its Class C, Class L, Class U, and Class W Shares, is authorized under a "Distribution Plan" to pay to the Distributor a Distribution Fee for certain activities relating to the distribution of shares to investors. These activities include marketing and other activities to support the distribution of Class C, Class L, Class U, and Class W Shares. The Plan operates in a manner consistent with Rule 12b-1 under the 1940 Act, which regulates the manner in which an

Annual Report 2019 70

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued)

December 31, 2019

open-end investment company may directly or indirectly bear the expenses of distributing its shares. Although the Fund is not an open-end investment company, it has undertaken to comply with the terms of Rule 12b-1 as a condition of an exemptive order under the 1940 Act which permits it to have asset based distribution fees. Under the Distribution Plan, the Fund pays the Distributor a Distribution Fee at an annual rate of 0.75% of average daily net assets attributable to Class C Shares, 0.25% of the average daily net assets attributable to Class L Shares, 0.50% of the average daily net assets attributable to Class W Shares, and 0.75% of the average daily net assets attributable to Class U Shares.

(7) Investment Transactions

For the period ended December 31, 2019, the cost of investments purchased and proceeds from sales of investments, excluding short obligations, were as follows:

Cost of Investments		Proceeds from the		
Purchased		Sale of Investments		
\$	88,670,617	\$	(40,122,923)	

(8) Derivative Instruments

The Fund recognizes all of its derivative instruments at fair value as either assets or liabilities in the Consolidated Statement of Assets and Liabilities. The changes in the fair value are included in the Consolidated Statement of Operations during the current year. The Fund is exposed to certain risks relating to its ongoing operations; the primary risks managed by using derivative instruments are market risk, credit risk, and foreign exchange risk. Additionally, the Fund holds certain derivative instruments for investment purposes. As of or during the period ended December 31, 2019, the Fund held the following instruments meeting the definition of a derivative instrument: foreign forward currency contracts, credit default swaps and total return swaps.

Qualitative Disclosures of Derivative Financial Instruments

The following is a description of the derivatives utilized by the Fund during the reporting period, including the primary underlying risk exposure related to each instrument type.

Foreign Forward Currency Contracts: the Fund enters into forward currency contracts from time to time to help mitigate the impact that an adverse change in foreign exchange rates would have on the value of the Fund's investments denominated in foreign currencies. As of December 31, 2019, the counterparty to the forward currency contracts was Goldman Sachs. Net unrealized gains or losses on forward currency contracts are included in "net realized gain on foreign currency contracts" in the accompanying Consolidated Statement of Operations.

Forward currency contracts are considered undesignated derivative instruments.

Certain information related to the Fund's foreign currency forward contracts is presented below as of December 31, 2019.

	As of December 31, 2019

Notes to Consolidated Financial Statements (continued)

December 31, 2019

Credit Default Swaps: The Fund enters into credit default swap contracts for investment purposes and to manage its credit risk. Credit default swap agreements involve one party making a stream of payments (referred to as the buyer of protection) to another party (the seller of protection) in exchange for the right to receive a specified return in the event of a default or other credit event for the referenced entity, obligation or index. The Fund may purchase or sell protection. A seller of protection generally receives an upfront payment or periodic payments throughout the term of the swap provided there is no credit event. Such periodic payments received are accrued daily and accounted for as realized gains. If a credit event occurs, as defined under the terms of the swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index. The buyer of protection generally pays an upfront premium or periodic payments throughout the term of the swap provided there is no credit event. Such periodic payments paid are accrued daily and accounted for as realized losses.

Entering into credit default swaps involves, to varying degrees, elements of credit, market and documentation risk in excess of the related amounts recognized in the Consolidated Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligations to perform or disagree as to the meaning of the contractual terms in the agreements, and that there will be unfavorable changes in net interest rates.

The Fund's derivative contracts are subject to either International Swaps and Derivatives Association ("ISDA")

Master Agreements, or futures contracts/OTC addendums which contain certain covenants and other provisions that, if violated, may require the Fund to post collateral on derivatives if the Fund is in a net liability position with its counterparties exceeding certain amounts. As of December 31, 2019, there are no derivative instruments with credit-risk-related contingent features that are in a net liability position after taking into effect permissible offsetting. Additionally, OTC derivative counterparties may immediately terminate these agreements and the related derivative contracts if the Fund fails to maintain sufficient asset coverage for its contracts or its net assets decline by stated percentages or amounts. As of December 31, 2019, the termination values of these derivative contracts were approximately equal to their fair values.

Total Return Swaps: Total return is used as substitutes for owning or shorting the physical securities that comprise a given market index, or to obtain long or short exposure in markets where no physical securities are available, such as an interest rate index. Total return refers to the payment (or receipt) of an index's total return, which is then exchanged for the receipt (or payment) of a floating interest rate. Total return swaps provide the Fund with the additional flexibility of gaining or shedding exposure to a market or sector index by using the most cost-effective vehicle available. To the extent the Fund uses total return swaps to hedge risk, basis risk may cause the hedge to be less effective or ineffective.

Offsetting Arrangements

Although the Fund generally presents derivative and other financial instruments on a gross basis in the Consolidated Statement of Assets and Liabilities, certain derivative and other financial instruments are subject to enforceable master netting arrangements with certain counterparties which allow for the derivative and other financial instruments to be offset.

The following table presents the rights of offset and related arrangements associated with the Fund's derivative instruments:

							Gross Amounts tement of Asse

December 31, 2019

(9) Risk Factors

Senior Loans Risk

Although senior loans ("Senior Loans") are senior and typically secured in a first or second lien position in contrast to other below investment grade fixed income instruments, which are often subordinated or unsecured, the risks associated with such Senior Loans are generally similar to the risks of other below investment grade fixed income instruments. Investments in below investment grade Senior Loans are considered speculative because of the credit risk of the issuers of debt instruments (each, a "Borrower"). Such Borrowers are more likely than investment grade Borrowers to default on their payments of interest and principal owed to the Fund, and such defaults could reduce the net asset value of the Fund and income distributions. An economic downturn would generally lead to a higher non-payment rate, and a Senior Loan may lose significant market value before a default occurs. Moreover, any specific collateral used to secure a Senior amended (the "Securities Act") or the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and Borrowers subject to the periodic reporting requirements of Section 13 of the Exchange Act. Senior Loans may be issued by companies that are not subject to SEC reporting requirements and these companies, therefore, do not file reports with the SEC that must comply with SEC form requirements and, in addition, are subject to a less stringent liability disclosure regime than companies subject to SEC reporting requirements. As a result, the Adviser will rely primarily on its own evaluation of a Borrower's credit quality rather than on any available independent sources. Consequently, the Fund will be particularly dependent on the analytical abilities of the Adviser. In certain circumstances, Senior Loans may not be deemed to be securities under certain federal securities laws, other than the Investment Company Act. Therefore, in the event of fraud or misrepresentation by a Borrower or an arranger, the Fund may not have the protection of the antifraud provisions of the federal securities laws as would otherwise be available for bonds or stocks. Instead, in such cases, parties Loan may decline in value or become illiquid, which could adversely affect the Senior Loan's value.

Senior Loans are subject to the risk of non-payment of scheduled interest or principal. Such non-payment would result in a reduction of income to the Fund, a reduction in the value of the investment and a potential decrease in the net asset value of the Fund. There can be no assurance that the liquidation of any collateral securing a Senior Loan would satisfy the Borrower's obligation in the event of nonpayment of scheduled interest or principal payments, whether when due or upon acceleration, or that the collateral could be liquidated, readily or otherwise. In the event of bankruptcy or insolvency of a Borrower, the Fund could experience delays or limitations with respect to its ability to realize the benefits of the collateral, if any, securing a Senior Loan. The collateral securing a Senior Loan, if any, may lose all or substantially all of its value in the event of the bankruptcy or insolvency of a Borrower. Some Senior Loans are subject to the risk that a court, pursuant to fraudulent conveyance or other similar laws, could subordinate such Senior Loans to presently existing or future indebtedness of the Borrower or take other action detrimental to the holders of Senior Loans including, in certain circumstances, invalidating such Senior Loans or causing interest previously paid to be refunded to the Borrower. Additionally, a Senior Loan may be "primed" in bankruptcy, which reduces the ability of the holders of the Senior Loan to recover on the collateral.

There may be less readily available information about most Senior Loans and the Borrowers thereunder than is the case for many other types of securities, including securities issued in transactions registered under the Securities Act of 1933, as

generally would rely on the contractual provisions in the Senior Loan agreement itself and common law fraud protections under applicable state law.

The secondary trading market for Senior Loans may be less liquid than the secondary trading market for registered investment grade debt securities. No active trading market may exist for certain Senior Loans, which may make it difficult to value them. Illiquidity and adverse market conditions may mean that the Fund may not be able to sell Senior Loans quickly or at a fair price. To the extent that a secondary market does exist for certain Senior Loans, the market for them may be subject to irregular trading activity, wide bid/ask spreads and extended trade settlement periods.

Senior Loans are subject to legislative risk. If legislation or state or federal regulations impose additional requirements or restrictions on the ability of financial institutions to make loans, the availability of Senior Loans for investment by the Fund may be adversely affected. In addition, such requirements or restrictions could reduce or eliminate sources of financing for certain Borrowers. This would increase the risk of default. If legislation or federal or state regulations require financial institutions to dispose of Senior Loans that are considered highly levered transactions. If the Fund attempts to sell a Senior Loan at a time when a financial institution is engaging in such a sale, the price the Fund could receive for the Senior Loan may be adversely affected.

Annual Report 2019 73

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued)

December 31, 2019

Subordinated Loans Risk

Subordinated loans generally are subject to similar risks as those associated with investments in Senior Loans, except that such loans are subordinated in payment and/or lower in lien priority to first lien holders. In the event of default on a Subordinated Loan, the first priority lien holder has first claim to the underlying collateral of the loan to the extent such claim is secured. Additionally, an over secured creditor may be entitled to additional interest and other charges in bankruptcy increasing the amount of their allowed claim. Subordinated Loans are subject to the additional risk that the cash flow of the Borrower and property securing the loan or debt, if any, may be insufficient to meet scheduled payments after giving effect to the senior obligations of the Borrower. This risk is generally higher for subordinated unsecured loans or debt, which are not backed by a security interest in any specific collateral. Subordinated Loans generally have greater price volatility than Senior Loans and may be less liquid.

Corporate Bonds Risk

The market value of a corporate bond generally may be expected to rise and fall inversely with interest rates. The market value of intermediate- and longer-term corporate bonds is generally more sensitive to changes in interest rates than is the market value of shorter-term corporate bonds. The market value of a corporate bond also may be affected by factors directly related to the Borrower, such as investors' perceptions of the creditworthiness of the Borrower, the Borrower's financial performance, perceptions of the Borrower in the market place, performance of management of the Borrower, the Borrower's capital structure and use of financial leverage and demand for the Borrower's goods and services. There is a risk that the Borrowers of corporate bonds may not be able to meet their obligations on interest or principal payments at the time called for by an instrument. High yield corporate bonds are often high risk and have speculative characteristics. High yield corporate bonds may be particularly susceptible to adverse Borrower-specific developments.

CLO Securities Risk

CLOs issue securities in tranches with different payment characteristics and different credit ratings. The rated tranches of securities issued by CLOs ("CLO Securities") are generally assigned credit ratings by one or more nationally recognized statistical rating organizations. The subordinated (or residual) tranches do not receive ratings. Below investment grade tranches of CLO Securities typically experience a lower recovery, greater risk of loss or deferral or non-payment of interest than more senior tranches of the CLO.

The riskiest portion of the capital structure of a CLO is the subordinated (or residual) tranche, which bears the bulk of defaults from the loans in the CLO and serves to protect the other, more senior tranches from default in all but the most severe circumstances. Since it is partially protected from defaults, a senior tranche from a CLO typically has higher ratings and lower yields than the underlying securities, and can be rated investment grade. Despite the protection from the subordinated tranche, CLO tranches can experience substantial losses due to actual defaults, increased sensitivity to defaults due to collateral default and disappearance of protecting tranches, market anticipation of defaults and aversion to CLO Securities as a class. The risks of an investment in a CLO depend largely on the collateral and the tranche of the CLO in which the Fund invests.

The CLOs in which the Fund invests may have issued and sold debt tranches that will rank senior to the tranches in which the Fund invests. By their terms, such more senior tranches may entitle the holders to receive payment of interest or principal on or before the dates on which the Fund is entitled to receive payments with respect to the tranches in which the Fund invests. Also, in the event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a CLO, holders of more senior tranches would typically be entitled to receive payment in full before the Fund receives any distribution. After repaying such senior creditors, such CLO may not have any remaining assets to use for repaying its obligation to the Fund. In the case of tranches ranking equally with the tranches in which the Fund invests, the Fund would have to share on an equal basis any distributions with other creditors holding such securities in the event of an insolvency, liquidation, dissolution, reorganization or bankruptcy of the relevant CLO. Therefore, the Fund may not receive back the full amount of its investment in a CLO.

The transaction documents relating to the issuance of CLO Securities may impose eligibility criteria on the assets of the CLO, restrict the ability of the CLO's investment manager to trade investments and impose certain portfolio-wide asset quality requirements. These criteria, restrictions and requirements may limit the ability of the CLO's investment manager to maximize returns on the CLO Securities. In addition, other parties involved in CLOs, such as third-party credit enhancers and investors in the rated tranches, may impose requirements that have an adverse effect on the returns of the various tranches of CLO Securities. Furthermore, CLO Securities issuance transaction documents generally contain provisions that, in the event that certain tests are not met (generally interest coverage and over-collateralization tests at varying levels in the capital structure), proceeds that would

Notes to Consolidated Financial Statements (continued)

December 31, 2019

otherwise be distributed to holders of a junior tranche must be diverted to pay down the senior tranches until such tests are satisfied. Failure (or increased likelihood of failure) of a CLO to make timely payments on a particular tranche will have an adverse effect on the liquidity and market value of such tranche.

Payments to holders of CLO Securities may be subject to deferral. If cash flows generated by the underlying assets are insufficient to make all current and, if applicable, deferred payments on CLO Securities, no other assets will be available for payment of the deficiency and, following realization of the underlying assets, the obligations of the Borrower of the related CLO Securities to pay such deficiency will be extinguished.

The market value of CLO Securities may be affected by, among other things, changes in the market value of the underlying assets held by the CLO, changes in the distributions on the underlying assets, defaults and recoveries on the underlying assets, capital gains and losses on the underlying assets, prepayments on underlying assets and the availability, prices and interest rate of underlying assets. Furthermore, the leveraged nature of each subordinated class may magnify the adverse impact on such class of changes in the value of the assets, capital gains and losses on the assets, capital gains and losses on the assets, capital gains and losses on the assets, changes in the distributions on the assets, defaults and recoveries on the assets, capital gains and losses on the assets, prepayment on assets and availability, price and interest rates of assets. Finally, CLO Securities are limited recourse and may not be paid in full and may be subject to up to 100% loss.

Asset-Backed Securities Risk

Asset-backed securities often involve risks that are different from or more acute than risks associated with other types of debt instruments. For instance, assetbacked securities may be particularly sensitive to changes in prevailing interest rates. In addition, the underlying assets are subject to prepayments that shorten the securities' weighted average maturity and may lower their return. Assetbacked securities are also subject to risks associated with their structure and the nature of the assets underlying the security and the servicing of those assets. Payment of interest and repayment of principal on asset-backed securities is largely dependent upon the cash flows generated by the assets backing the securities and, in certain cases, supported by letters of credit, surety bonds or other credit enhancements. The values of asset-backed securities may be substantially dependent on the servicing of the underlying asset pools, and are therefore subject to risks associated with the negligence by, or defalcation of, their servicers. Furthermore, debtors may be entitled to the protection of a number of state and federal consumer credit laws with respect to the assets underlying these securities, which may give the debtor the right to avoid or reduce payment. In addition, due to their often complicated structures, various asset-backed securities may be difficult to value and may constitute illiquid investments. If many Borrowers on the underlying loans default, losses could exceed the credit enhancement level and result in losses to investors in asset-backed securities.

Investment and Market Risk

An investment in the common shares of the Fund is subject to investment risk, including the possible loss of the entire principal amount invested. An investment in the common shares of the Fund represents an indirect investment in the portfolio of Senior Loans, Corporate Bonds, CLO Securities and other securities and loans owned by the Fund, and the value of these securities and loans may fluctuate, sometimes rapidly and unpredictably. For instance, during periods of global economic downturn, the secondary markets for Senior Loans and investments with similar economic characteristics (such as second lien loans and unsecured loans) and Corporate Bonds may experience sudden and sharp price swings, which can be exacerbated by large or sustained sales by major investors in these markets, a high-profile default by a major Borrower, movements in indices tied to these markets or related securities or investments, or a change in the market's perception of Senior Loans and investments with similar economic characteristics (such as second lien loans and unsecured loans) and Corporate Bonds. At any point in time, an investment in the common shares of the Fund may be worth less than the original amount invested, even after taking into account distributions paid by the Fund, if any, and the ability of common shareholders to reinvest dividends. The Fund currently intends to utilize leverage, which will magnify the Fund's risks and, in turn, the risks to the common shareholders.

Interest Rate Risk

The market value of Corporate Bonds and other fixed-income securities changes in response to interest rate changes and other factors. Interest rate risk is the risk that prices of bonds and other fixed-income securities will increase as interest rates fall and decrease as rates rise. Accordingly, an increase in market interest rates (which are currently considered low by historic standards) may cause a decrease in the price of a debt security and, therefore, a decline in the net asset value of the Fund's common shares. The magnitude of these fluctuations in the market price of bonds and other fixed-income securities is generally greater for those securities with longer maturities.

Annual Report 2019 75

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued)

December 31, 2019

Because Senior Loans with floating or variable rates reset their interest rates only periodically, changes in prevailing interest rates (and particularly sudden and significant changes) can be expected to cause some fluctuations in the net asset value of the Fund's common shares. In addition, Senior Loans or similar loans or securities may allow the Borrower to opt between LIBOR-based interest rates and interest rates based on bank prime rates, which may have an effect on the net asset value of the Fund's common shares.

LIBOR Rate Risk

National and international regulators and law enforcement agencies have conducted investigations into a number of rates or indices that are deemed to be "reference rates." Actions by such regulators and law enforcement agencies may result in changes to the manner in which certain reference rates are determined, their discontinuance, or the establishment of alternative reference rates. In particular, on July 27, 2017, the Chief Executive of the U.K. Financial Conduct Authority (the "FCA"), which regulates LIBOR, announced that the FCA will no longer persuade or compel banks to submit rates for the calculation of LIBOR after 2021. Such announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. It appears highly likely that LIBOR will be discontinued or modified by 2021.

The U.S. Federal Reserve, in conjunction with the Alternative Reference Rates Committee, a steering committee comprised of large U.S. financial institutions, is considering replacing U.S. dollar LIBOR with a new index calculated by shortterm repurchase agreements, backed by Treasury securities (the "Secured Overnight Financing Rate," or "SOFR"). The future of LIBOR at this time is the Fund could sell the securities or loans if they were more widely traded and, as a result of that illiquidity, the Fund may have to sell other investments or engage in borrowing transactions if necessary to raise cash to meet its obligations. Limited liquidity can also affect the market price of securities, thereby adversely affecting the net asset value of the common shares and ability to make dividend distributions. Some Senior Loans are not readily marketable and may be subject to restrictions on resale. Senior Loans generally are not listed on any national securities exchange and no active trading market may exist for the Senior Loans in which the Fund may invest. When a secondary market exists, if at all, the market for some Senior Loans may be subject to irregular trading activity, wide bid/ask spreads and extended trade settlement periods. Further, the lack of an established secondary market for illiquid securities may make it more difficult to value such securities, which may negatively affect the price the Fund would receive upon disposition of such securities.

Duration and Maturity Risk

The Fund has no fixed policy regarding portfolio maturity or duration. Holding long duration and long maturity investments will expose the Fund to certain additional risks.

When interest rates rise, certain obligations will be paid off by the Borrower more slowly than anticipated, causing the value of these obligations to fall. Rising interest rates tend to extend the duration of securities, making them more sensitive to changes in interest rates. The value of longer-term securities generally changes more in response to changes in interest rates than shorter-term securities. uncertain. Potential changes, or uncertainty related to such potential changes, may adversely affect the market for LIBOR-based securities, including our portfolio of LIBOR-indexed, floating-rate debt securities, or the cost of our borrowings. In addition, changes or reforms to the determination or supervision of LIBOR may result in a sudden or prolonged increase or decrease in reported LIBOR, which could have an adverse impact on the market for LIBOR-based securities, including the value of the LIBOR-indexed, floating-rate debt securities in our portfolio, or the cost of our borrowings. Additionally, if LIBOR ceases to exist, the Fund may need to renegotiate the credit agreements extending beyond 2021 with our credit facility lenders that utilize LIBOR as a factor in determining the interest rate to replace LIBOR with the new standard that is established.

Liquidity Risk

The Fund may not be able to readily dispose of illiquid securities or loans at prices that approximate those at which

As a result, in a period of rising interest rates, securities may exhibit additional volatility and may lose value.

When interest rates fall, certain obligations will be paid off by the Borrower more quickly than originally anticipated, and the Fund may have to invest the proceeds in securities with lower yields. In periods of falling interest rates, the rate of prepayments tends to increase (as does price fluctuation) as Borrowers are motivated to pay off debt and refinance at new lower rates. During such periods, reinvestment of the prepayment proceeds by the Adviser will generally be at lower rates of return than the return on the assets that were prepaid. Prepayment reduces the yield to maturity and the average life of the security.

Special Situations and Stressed Investments Risk

Although investments in debt and equity securities and other obligations of companies that may be in some level of financial or business distress, including companies involved in, or that have recently completed, bankruptcy or other reorganization and liquidation proceedings ("Stressed

Annual Report 2019 76

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued)

December 31, 2019

Issuers") (such investments, "Special Situation Investments") may result in significant returns for the Fund, they are speculative and involve a substantial degree of risk. The level of analytical sophistication, both financial and legal, necessary for successful investment in distressed assets is unusually high. Therefore, the Fund will be particularly dependent on the analytical abilities of the Adviser. In any reorganization or liquidation proceeding relating to a company in which the Fund invests, the Fund may lose its entire investment, may be required to accept cash or securities with a value less than the Fund's original investment and/or may be required to accept payment over an extended period of time. Among the risks inherent in investments in a troubled company is that it may be difficult to obtain information as to the true financial condition of such company. Troubled company investments and other distressed asset-based investments require active monitoring.

The Fund may make investments in Stressed Issuers when the Adviser believes it is reasonably likely that the Stressed Issuer will make an exchange offer or will be the subject to a plan of reorganization pursuant to which the Fund will receive new securities in return for a Special Situation Investment. There can be no assurance, however, that such an exchange offer will be made or that such a plan of reorganization will be adopted. In addition, a significant period of time may pass between the time at which the Fund makes its investment in the Special Situation Investment and the time that any such exchange offer or plan of reorganization is completed, if at all. During this period, it is unlikely that the Fund would receive any interest payments on the Special Situation Investment, the Fund would be subject to significant uncertainty whether the exchange offer or plan of reorganization will be completed and the Fund may be required to bear certain extraordinary expenses to protect and recover its investment. Therefore, to the extent the Fund seeks capital appreciation through investment in Special Situation Investments, the Fund's ability to achieve current income for its shareholders may be diminished. The Fund also will be subject to significant uncertainty as to when, in what manner and for what value the obligations evidenced by Special Situation Investments will eventually be satisfied (e.g., through a liquidation of the obligor's assets, an exchange offer or plan of reorganization involving the Special Situation Investments or a payment of some amount in satisfaction of the obligation). Even if an exchange offer is made or plan of reorganization is adopted with respect to Special Situation Investments held by the Fund, there can be no assurance that the securities or other assets received by the Fund in connection with such exchange offer or plan of reorganization will not have a lower value or income potential than may have been anticipated when the investment was made or even no

value. Moreover, any securities received by the Fund upon completion of an exchange offer or plan of reorganization may be restricted as to resale. Similarly, if the Fund participates in negotiations with respect to any exchange offer or plan of reorganization with respect to an issuer of Special Situation Investments, the Fund may be restricted from disposing of such securities. To the extent that the Fund becomes involved in such proceedings, the Fund may have a more active participation in the affairs of the issuer than that assumed generally by an investor.

To the extent that the Fund holds interests in a Stressed Issuer that are different (or more senior or junior) than those held by other funds and/or accounts managed by Ares or its affiliates ("Other Accounts"), the Adviser is likely to be presented with decisions involving circumstances where the interests of such Other Accounts may be in conflict with the Fund's interests. Furthermore, it is possible that the Fund's interest may be subordinated or otherwise adversely affected by virtue of such Other Accounts' involvement and actions relating to their investment. In addition, when the Fund and Other Accounts hold investments in the same Stressed Issuer (including in the same level of the capital structure), the Fund may be prohibited by applicable law from participating in restructurings, work-outs, renegotiations or other activities related to its investment in the Stressed Issuer absent an exemption due to the fact that Other Accounts hold investments in the same Stressed Issuer. As a result, the Fund may not be permitted by law to make the same investment decisions as Other Accounts in the same or similar situations even if the Adviser believes it would be in the Fund's best economic interests to do so. Also, the Fund may be prohibited by applicable law from investing in a Stressed Issuer (or an affiliate) that Other Accounts are also investing in or currently invest in even if the Adviser believes it would be in the best economic interests of the Fund to do so. Furthermore, entering into certain transactions that are not deemed prohibited by law when made may potentially lead to a condition that raises regulatory or legal concerns in the future. This may be the case, for example, with Stressed Issuers who are near default and more likely to enter into restructuring or work-out transactions with their existing debt holders, which may include the Fund and its affiliates. In some cases, to avoid the potential of future prohibited transactions, the Adviser may avoid recommending allocating an investment opportunity to the Fund that it would otherwise recommend, subject to the Adviser's then-current allocation policy and any applicable exemptions.

Annual Report 2019 77

CION Ares Diversified Credit Fund

Notes to Consolidated Financial Statements (continued) December 31, 2019 Debt instruments that are rated below investment grade are often referred to as "high yield" securities or "junk bonds." Below investment grade instruments are rated "Ba1" or lower by Moody's, "BB+" or lower by S&P or "BB+" or lower by Fitch or, if unrated, are judged by the Adviser to be of comparable credit quality. While generally providing greater income and opportunity for gain, below investment grade debt instruments may be subject to greater risks than securities or instruments that have higher credit ratings, including a higher risk of default. The credit rating of an instrument that is rated below investment grade does not necessarily address its market value risk, and ratings may from time to time change, positively or negatively, to reflect developments regarding the Borrower's financial condition. Below investment grade instruments often are considered to be speculative with respect to the capacity of the Borrower to timely repay principal and pay interest or dividends in accordance with the terms of the obligation and may have more credit risk than higher rated securities. Lower grade securities and similar debt instruments may be particularly susceptible to economic downturns. It is likely that a prolonged or deepening economic recession could adversely affect the ability of some Borrowers issuing such debt instruments to repay principal and pay interest on the instrument, increase the incidence of default and severely disrupt the market value of the securities and similar debt instruments.

The secondary market for below investment grade instruments may be less liquid than that for higher rated instruments. Because unrated securities may not have an active trading market or may be difficult to value, the Fund might have difficulty selling them promptly at an acceptable price. To the extent that the Fund invests in unrated securities, the Fund's ability to achieve its investment objectives will be more dependent on the Adviser's credit analysis than would be the case when the Fund invests in rated securities.

Under normal market conditions, the Fund will invest in debt instruments rated in the lower rating categories ("Caa1" or lower by Moody's, "CCC+" or lower by S&P or "CCC+" or lower by Fitch) or unrated and of comparable quality. For these securities, the risks associated with below investment grade instruments are more pronounced. The Fund may incur additional expenses to the extent it is required to seek recovery upon a default in the payment of principal or interest on its portfolio holdings. In any reorganization or liquidation proceeding relating to an investment, the Fund may lose its entire investment or may be required to accept cash or securities with a value substantially less than its original investment.

The Fund may invest a portion of its capital in debt securities issued by issuers domiciled in Europe, including issuers domiciled in the United Kingdom ("UK"). Concerns regarding the sovereign debt of various Eurozone countries and proposals for investors to incur substantial write-downs and reductions in the face value of the sovereign debt of certain countries give rise to concerns about sovereign defaults, the possibility that one or more countries might leave the European Union or the Eurozone and various proposals (still under consideration and unclear in material respects) for support of affected countries and the Euro as a currency. The outcome of any such situation cannot be predicted. Sovereign debt defaults and European Union and/or Eurozone exits could have material adverse effects on investments by the Fund in securities of European companies, including but not limited to the availability of credit to support such companies' financing needs, uncertainty and disruption in relation to financing, customer and supply contracts denominated in Euro and wider economic disruption in markets served by those companies, while austerity and other measures that have been introduced in order to limit or contain these issues may themselves lead to economic contraction and resulting adverse effects for the Fund. A number of the Fund's securities may be denominated in the Euro. Legal uncertainty about the funding of Euro denominated obligations following any breakup or exits from the Eurozone (particularly in the case of investments in securities of companies in affected countries) could also have material adverse effects on the Fund. The uncertainty in the wake of the UK's "Brexit" referendum and subsequent political developments could have a negative impact on both the UK economy and the economies of other countries in Europe. The Brexit process also may lead to greater volatility in the global currency and financial markets, which could adversely affect the Fund. In connection with investments in non-US issuers, the Fund may engage in foreign currency exchange transactions but is not required to hedge its currency exposure. As such, the Fund makes investments that are denominated in British pound sterling or Euros. The Fund's assets are valued in US dollars and the depreciation of the British pound sterling and/or the Euro in relation to the US dollar in anticipation of Brexit or otherwise adversely affects the Fund's investments denominated in British pound sterling or Euros that are not fully hedged regardless of the performance of the underlying issuer. Global central banks may maintain historically low interest rates longer than was anticipated prior to the Brexit vote, which could adversely affect the Fund's income and its level of distributions.

CION Ares Diversified Credit Fund

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Trustees of CION Ares Diversified Credit Fund

Opinion on the Financial Statements

We have audited the accompanying consolidated statement of assets and liabilities of CION Ares Diversified Credit Fund (the "Fund"), including the consolidated schedule of investments, as of December 31, 2019, and the related consolidated statements of operations and cash flows for the period from November 1, 2019 to

December 31, 2019 and the year ended October 31, 2019, the consolidated statements of changes in net assets for the period from November 1, 2019 to December 31, 2019 and each of the two years in the period ended October 31, 2019, the consolidated financial highlights for the period from November 1, 2019 to December 31, 2019, each of the two years in the period ended October 31, 2019, and for the period from January 26, 2017 (commencement of operations) through October 31, 2017 and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the consolidated financial position of the Fund at December 31, 2019, the consolidated results of its operations and its cash flows for the period from November 1, 2019 to December 31, 2019 and for the year ended October 31, 2019, the consolidated changes in its net assets for the period from November 1, 2019 to December 31, 2019 and for the years ended October 31, 2019, and its consolidated financial highlights for the period from November 1, 2019 to December 31, 2019 and for the years ended October 31, 2019 and its consolidated financial highlights for the period from November 1, 2019 to December 31, 2019 and for each of the two years in the period ended October 31, 2019, and for the period from November 1, 2019 to December 31, 2019 and for each of the two years ended October 31, 2019 and its consolidated financial highlights for the period from November 1, 2019 to December 31, 2019, each of the two years in the period ended October 31, 2019, and for the period from January 26, 2017 (commencement of operations) through October 31, 2017, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund's internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2019, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young ILP

We have served as the Fund's auditor since 2016.

Proxy Information

The policies and procedures used to determine how to vote proxies relating to securities held by the Fund are available (1) without charge, upon request, by calling 1-877-855-3434, or (2) on the SEC's website at http://www.sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 will be available on Form N-PX by August 31 of each year (1) without charge, upon request, by calling 1-877-855-3434, or (2) on the SEC's website at http://www.sec.gov.

Portfolio Information

The Fund files its complete schedule of portfolio holdings for each month in a fiscal quarter within 60 days after the end of the relevant fiscal quarter on SEC Form N-PORT. The Fund's Form N-PORT will be available (1) without charge, upon request, by calling 1-877-855-3434; (2) on the SEC's website at http://www.sec.gov.

Annual Report 2019 81

CION Ares Diversified Credit Fund

Additional Information (continued)

December 31, 2019

Dividend Reinvestment Plan

The Fund will operate under a dividend reinvestment plan, (the "DRIP") administered by DST Systems, Inc. ("DST"). Pursuant to the plan, the Fund's distributions, net of any applicable U.S. withholding tax, are reinvested in the same class of shares of the Fund.

Shareholders automatically participate in the DRIP, unless and until an election is made to withdraw from the plan on behalf of such participating shareholder. A shareholder who does not wish to have distributions automatically reinvested may terminate participation in the DRIP at any time by written instructions to that effect to DST. Shareholders who elect not to participate in the DRIP will receive all distributions in cash paid to the shareholder of record (or, if the shares are held in street or other nominee name, then to such nominee). Such written instructions must be received by the DST 30 days prior to the record date of the distribution or the shareholder will receive such distribution in shares through the DRIP. Under the DRIP, the Fund's distributions to shareholders are automatically reinvested in full and fractional shares as described below.

When the Fund declares a distribution, DST, on the shareholder's behalf, will receive additional authorized shares from the Fund either newly issued or repurchased from shareholders by the Fund and held as treasury stock. The number of shares to be received when distributions are reinvested will be determined by dividing the amount of the Distribution by the Fund's Net Asset Value (the "NAV") per share.

DST will maintain all shareholder accounts and furnish written confirmations of all transactions in the accounts, including information needed by shareholders for personal and tax records. DST will hold shares in the account of the shareholders in non-certificated form in the name of the participant, and each shareholder's proxy, if any, will include those shares purchased pursuant to the DRIP. Each participant, nevertheless, has the right to request certificates for whole and fractional shares owned. The Fund will issue certificates in its sole discretion. DST will distribute all proxy solicitation materials, if any, to participating shareholders.

In the case of shareholders, such as banks, brokers or nominees, that hold shares for others who are beneficial owners participating under the DRIP, DST will administer the DRIP on the basis of the number of shares certified from time to time by the record shareholder as representing the total amount of shares registered in the

shareholder's name and held for the account of beneficial owners participating under the DRIP.

Neither DST nor the Fund shall have any responsibility or liability beyond the exercise of ordinary care for any action taken or omitted pursuant to the DRIP, nor shall they have any duties, responsibilities or liabilities except such as expressly set forth herein. Neither shall they be liable hereunder for any act done in good faith or for any good faith omissions to act, including, without limitation, failure to terminate a participant's account prior to receipt of written notice of his or her death or with respect to prices at which shares are purchased or sold for the participants account and the terms on which such purchases and sales are made, subject to applicable provisions of the federal securities laws.

The automatic reinvestment of dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. See "Tax Aspects." The Fund reserves the right to amend or terminate the DRIP. There is no direct service charge to participants with regard to purchases under the DRIP; however, the Fund reserves the right to amend the DRIP to include a service charge payable by the participants.

All correspondence concerning the DRIP should be directed to DST at CION Ares Diversified Credit Fund c/o DST Systems, Inc., P.O. Box 219422, Kansas City, MO 64121-9422. Certain transactions can be performed by calling the toll free number 888-729-4266.

Additional Information (continued)

December 31, 2019

Plan of Distribution

ALPS Distributors Inc. (the "Distributor") located at 1290 Broadway, Suite 1100, Denver, CO 80203, serves as the Fund's principal underwriter and acts as the Distributor of the Fund's shares on a best efforts basis, subject to various conditions. The Fund's shares are offered for sale through the Distributor at NAV plus the applicable sales load. The Distributor also may enter into agreements with financial intermediaries for the sale and servicing of the Fund's shares. In reliance on Rule 415 of the Securities Act of 1933, the Fund intends to offer to sell up to \$1,061,000,000 of its shares, on a continual basis, through the Distributor. No arrangement has been made to place funds received in an escrow, trust or similar account. The Distributor is not required to sell any specific number or dollar amount of the Fund's shares, but will use its best efforts to solicit orders for the purchase of the shares. Shares of the Fund will not be listed on any national securities exchange and the Distributor will not act as a market marker in Fund shares.

The Distributor has entered into a wholesale marketing agreement with CION Securities, a registered broker-dealer and an affiliate of CION. Pursuant to the terms of the wholesale marketing agreement, CION Securities will seek to market and otherwise promote the Fund through various wholesale distribution channels, including regional and independent retail broker-dealers and registered investment advisers.

CION Securities has also entered into a dealer manager agreement with the Fund pursuant to which CION Securities has agreed to provide certain marketing and wholesale services in consideration of its receipt of the dealer manager fee.

The advisers or their affiliates, in the advisers' discretion and from their own resources, may pay additional compensation to financial intermediaries in connection with the sale of the Fund's shares. In return for the additional compensation, the Fund may receive certain marketing advantages including access to a financial intermediaries' registered representatives, placement on a list of investment options offered by a financial intermediary, or the ability to assist in training and educating the financial intermediaries'. The additional compensation may differ among financial intermediaries in amount or in the manner of calculation: payments of additional compensation may be fixed dollar amounts, or based on the aggregate value of outstanding shares held by Shareholders introduced by the financial intermediary, or determined in some other manner. The receipt of additional compensation by a selling financial intermediary may create potential conflicts of interest between an investor and its financial intermediary who is recommending the Fund over other potential investments. Additionally, the Fund pays a servicing fee to the financial intermediaries or financial institution for providing ongoing services in respect of clients holding shares of the Fund. Such services may include electronic processing of client orders, electronic fund transfers between clients and the Fund, account reconciliations with the Fund's transfer agent, facilitation of electronic delivery to clients of Fund documentation, monitoring client accounts for back-up withholding and any other special tax reporting obligations, maintenance of books and records with respect to the foregoing, and such other information and ongoing liaison services as the Fund or the Advisers may reasonably request.

The Fund and the Advisers have agreed to indemnify the Distributor against certain liabilities, including liabilities under the 1933 Act, or to contribute to payments the Distributor may be required to make because of any of those liabilities. Such agreement does not include indemnification of the Distributor against liability resulting from willful misfeasance, bad faith or negligence on the part of the Distributor in the performance of its duties or from reckless disregard by the Distributor of its obligations and duties under the Distribution Agreement.

Privacy Notice

We are committed to maintaining the privacy of our shareholders and to safeguarding their nonpublic personal information. The following information is provided to help you understand what personal information we collect, how we protect that information and why, in certain cases, we may share information with select other parties.

Generally, we will not receive any non-public personal information about shareholders of the common stock of the Fund, although certain of our shareholders' non-public information may become available to us. The non-public personal information that we may receive falls into the following categories:

• Information we receive from shareholders, whether we receive it orally, in writing or electronically. This includes shareholders' communications to us concerning their investment;

· Information about shareholders' transactions and history with us; or

• Other general information that we may obtain about shareholders, such as demographic and contact information such as address.

We do not disclose any non-public personal information about shareholders, except:

• to our affiliates (such as our investment adviser) and their employees that have a legitimate business need for the information;

• to our service providers (such as our administrator, accountants, attorneys, custodians, transfer agent, underwriter and proxy solicitors) and their employees as is necessary to service shareholder accounts or otherwise provide the applicable service;

- to comply with court orders, subpoenas, lawful discovery requests, or other legal or regulatory requirements; or
- · as allowed or required by applicable law or regulation.

When the Fund shares non-public shareholder personal information referred to above, the information is made available for limited business purposes and under controlled circumstances designed to protect our shareholders' privacy. The Fund does not permit use of shareholder information for any non-business or marketing purpose, nor does the Fund permit third parties to rent, sell, trade or otherwise release or disclose information to any other party.

The Fund's service providers, such as their adviser, administrator, and transfer agent, are required to maintain physical, electronic, and procedural safeguards to protect shareholder nonpublic personal information; to prevent unauthorized access or use; and to dispose of such information when it is no longer required.

Personnel of affiliates may access shareholder information only for business purposes. The degree of access is based on the sensitivity of the information and on personnel need for the information to service a shareholder's account or comply with legal requirements.

If a shareholder ceases to be a shareholder, we will adhere to the privacy policies and practices as described above. We may choose to modify our privacy policies at any time. Before we do so, we will notify shareholders and provide a description of our privacy policy.

In the event of a corporate change in control resulting from, for example, a sale to, or merger with, another entity, or in the event of a sale of assets, we reserve the right to transfer your non-public personal information to the new party in control or the party acquiring assets.

Annual Report 2019 92

CION | ØARES

Item 2. Code of Ethics.

(a) CION Ares Diversified Credit Fund (the "Fund") has adopted a Code of Ethics that applies to the Fund's principal executive officer and principal financial officer (the "Code of Ethics").

(c) The Fund has not made any amendment to its Code of Ethics during the period covered by this Form N-CSR.

(d) There have been no waivers, including any implicit waivers, granted by the Fund to individuals covered by the Fund's Code of Ethics during the reporting period for this Form N-CSR.

(e) Not applicable.

(f) A copy of the Fund's Code of Ethics is attached hereto as exhibit 13(a)(1).

Item 3. Audit Committee Financial Expert.

(a)(1) The Board of Trustees of the Fund has determined that the Fund has three members serving on the Fund's Audit Committee that possess the attributes identified in Instruction 2(b) of Item 3 to Form N-CSR to qualify as an "audit committee financial expert."

(a)(2) The names of the audit committee financial experts as of the date of filing of this Form N-CSR are John Joseph Shaw, James K. Hunt and Paula B. Pretlow. Each of Messrs. Shaw and Hunt and Ms. Pretlow has been deemed to be "independent" for the purpose of this Item because he or she is not an "interested person" of the Fund as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended (the "<u>1940 Act</u>") and does not accept directly or indirectly any consulting, advisory, or other compensatory fee from the Fund.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees

For the fiscal year ended October 31, 2019 and the fiscal period of November 1, 2019 through December 31, 2019, Ernst & Young LLP ("<u>E&Y</u>"), the Fund's independent registered public accounting firm, billed the Fund aggregate fees of \$250,000 and \$127,400, respectively, for professional services rendered for the audit of the Fund's annual financial statements or for services normally provided by E&Y in connection with statutory and regulatory filings or engagements.

(b) Audit-Related Fees

For the fiscal year ended October 31, 2019 and the fiscal period of November 1, 2019 through December 31, 2019, the aggregate fees billed for assurance and related services rendered by E&Y that are reasonably related to the performance of the audit or review of the Fund's financial statements and that are not reported under Audit Fees above were \$51,000 and \$0, respectively.

For the fiscal year ended October 31, 2019 and the fiscal period of November 1, 2019 through December 31, 2019, aggregate Audit-Related Fees billed by E&Y that were required to be approved by the Fund's Audit Committee for audit-related services rendered to the Fund's investment adviser and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the Fund (the "<u>Affiliated Service Providers</u>") that relate directly to the operations and financial reporting of the Fund were \$0 and \$0, respectively.

(c) Tax Fees

For the fiscal year ended October 31, 2019 and the fiscal period of November 1, 2019 through December 31, 2019, E&Y billed the Fund aggregate fees of \$14,100 and \$0, respectively, for professional services rendered for tax compliance, tax advice, and tax planning. The nature of the services comprising the Tax Fees was the review of the Fund's income tax returns and tax distribution requirements.

For the fiscal year ended October 31, 2019 and the fiscal period of November 1, 2019 through December 31, 2019, the aggregate Tax Fees billed by E&Y that were required to be approved by the Fund's Audit Committee for tax compliance, tax advice and tax planning services rendered on behalf of Affiliated Service Providers that relate directly to the operations and financial reporting of the Fund were \$0 and \$0, respectively.

(d) All Other Fees

For the fiscal year ended October 31, 2019 and the fiscal period of November 1, 2019 through December 31, 2019, the aggregate fees billed by E&Y to the Fund for all services other than services reported under Audit Fees, Audit-Related Fees, and Tax Fees were \$0 and \$0, respectively.

For the fiscal year ended October 31, 2019 and the fiscal period of November 1, 2019 through December 31, 2019, the aggregate fees in this category billed by E&Y that were required to be approved by the Fund's Audit Committee for services rendered on behalf of Affiliated Service Providers that relate directly to the operations and financial reporting of the Fund were \$0 and \$0, respectively.

(e)(1) Audit Committee's Pre-Approval Policies and Procedures

The Fund's Audit Committee Charter requires that the Audit Committee pre-approve all audit and non-audit services to be provided to the Fund by the Fund's independent registered public accounting firm; provided, however, that the pre-approval requirement with respect to the provision of non-auditing services to the Fund by the Fund's independent registered public accounting firm may be waived by the Audit Committee under the circumstances described in the Securities Exchange Act of 1934, as amended (the "<u>1934 Act</u>").

(e)(2) Percentage of Services

All of the audit and tax services described above for which E&Y billed the Fund fees for the fiscal year ended October 31, 2019 and the fiscal period of November 1, 2019 through December 31, 2019, were pre-approved by the Audit Committee.

For the fiscal year ended October 31, 2019 and the fiscal period of November 1, 2019 through December 31, 2019, the Fund's Audit Committee did not waive the preapproval requirement of any non-audit services to be provided to the Fund by E&Y.

(f) Not applicable.

(g) For the fiscal year ended October 31, 2019 and the fiscal period of November 1, 2019 through December 31, 2019, aggregate non-audit fees billed by E&Y for services rendered to the Fund were \$0 and \$0, respectively.

For the fiscal year ended October 31, 2019 and the fiscal period of November 1, 2019 through December 31, 2019, aggregate non-audit fees billed by E&Y for services rendered to the Affiliated Service Providers were \$0 and \$0, respectively.

(h) E&Y notified the Fund's Audit Committee of all non-audit services that were rendered by E&Y to the Fund's Affiliated Service Providers that were not preapproved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X, allowing the Fund's Audit Committee to consider whether such services were compatible with maintaining E&Y's independence.

Item 5. Audit Committee of Listed Registrants.

(a) The Fund has a separately-designated Audit Committee established in accordance with Section 3(a)(58)(A) of the 1934 Act. The members of the Fund's Audit Committee are James K. Hunt, Paula B. Pretlow, John Joseph Shaw, Bruce H. Spector and Mark R. Yosowitz.

(b) Not applicable.

Item 6. Investments.

(a) Schedule of Investments is included as part of Item 1 of this Form N-CSR.

(b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Investment Companies.

Attached to this Form N-CSR as exhibit 13(a)(5) is a copy of the proxy voting policies and procedures of the Fund and its investment adviser.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) As of the date of this filing, the portfolio managers of the Fund are as follows:

Mitch Goldstein Partner, Co-Head of the Ares Credit Group and Portfolio Manager (since inception) Investment Experience:

Mr. Goldstein is a Partner and Co-Head of the Ares Credit Group and a member of the Management Committee of Ares Management Corporation ("<u>Ares Management</u>"). He additionally serves as Co-President of Ares Capital Corporation ("<u>ARCC</u>") and Vice President and interested trustee of the Fund. He is a member of the Ares Credit Group's U.S. Direct Lending and Commercial Finance Investment Committees and the Ivy Hill Asset Management Investment Committee. Prior to joining Ares Management in May 2005, Mr. Goldstein worked at Credit Suisse First Boston ("<u>CSFB</u>"), where he was a Managing Director in the Financial Sponsors Group. At CSFB, Mr. Goldstein was responsible for providing investment banking services to private equity funds and hedge funds with a focus on M&A and restructurings as well as capital raisings, including high yield, bank debt, mezzanine debt, and initial public offerings. Mr. Goldstein joined CSFB in 2000 at the completion of the merger with Donaldson, Lufkin & Jenrette. From 1998 to 2000, Mr. Goldstein was at Indosuez Capital, where he was a member of the Investment Committee and a Principal, responsible for originating, structuring and executing leveraged transactions across a broad range of products and asset classes. From 1993 to 1998, Mr. Goldstein worked at Bankers Trust. He also serves on the Board of Managers of Ivy Hill Asset Management GP, LLC.

Mr. Goldstein graduated summa cum laude from the State University of New York at Binghamton with a B.S. in Accounting, received an M.B.A. from Columbia University's Graduate School of Business and is a Certified Public Accountant.

Greg Margolies

Partner, Head of Markets and Portfolio Manager (since inception) Investment Experience:

Mr. Margolies is a Partner in the Ares Credit Group, the Head of Markets for Ares Management LLC ("Ares"), and a member of the Management Committee of Ares Management and is Vice President of the Fund. Additionally, Mr. Margolies serves as a member of the Ares Credit Group's Alternative Credit Investment Committee, the Ares Dynamic Credit Allocation Fund Investment Committee and the Ares Private Equity Group's Special Opportunities Investment Committee. Prior to joining Ares in 2009, Mr. Margolies served as a Managing Director and Global Head of Leveraged Finance and Capital Commitments at Merrill Lynch & Co. and was a member of the Executive Committee for Merrill Lynch's Global Investment Banking Group. Previously, Mr. Margolies was Co-Head of the DB Capital Mezzanine Fund. Mr. Margolies serves on the Board of Directors for the International Organization for Women and Development, the Advisory Council for University of Michigan's Life Science Institute and the Board of Trustees for The Juilliard School.

Mr. Margolies holds a B.A. from the University of Michigan in International Economics and Finance and an M.B.A. from the University of Pennsylvania Wharton School of Business.

(a)(2) As of December 31, 2019, the Portfolio Managers were primarily responsible for the day-to-day portfolio management of the following accounts:

Name of Portfolio Manager	Type of Accounts	Total # of Accounts Managed	Total Assets (in millions)	# of Accounts Managed for which Advisory Fee is Based on Performance	Total Assets for which Advisory Fee is Based on Performance (in millions)
Mitch Goldstein	Registered investment companies	2	\$17,438	2	\$17,438
	Other pooled investment vehicles	3	\$5,586	3	\$5,586
	Other accounts	18	\$12,234	17	\$9,821
Greg Margolies	Registered investment companies	1	\$815	1	\$815
	Other pooled investment vehicles	2	\$2,186	2	\$2,186
	Other accounts	1	\$288	1	\$288

Material Conflicts of Interest:

The Fund's executive officers and trustees, and the employees of CION Ares Management, LLC ("<u>CAM</u>" or the "<u>Advisor</u>") and Ares Capital Management II LLC ("<u>Ares</u> <u>Capital</u>" and collectively with CAM, the "<u>Advisors</u>"), serve or may serve as officers, trustees or principals of entities that operate in the same or a related line of business as the Fund or of other Ares- or CION Investment Group, LLC ("<u>CION</u>")-advised funds ("<u>Other Managed Funds</u>"). As a result, they may have obligations to investors in those entities, the fulfillment of which might not be in the best interests of the Fund or its shareholders. Moreover, notwithstanding the difference in principal investment objectives between the Fund and the Other Managed Funds, such other funds, including potential new pooled investment vehicles or managed accounts not yet established (whether managed or sponsored by affiliates or the Advisors), have, and may from time to time have, overlapping investment objectives with the Fund and, accordingly, invest in, whether principally or secondarily, asset classes similar to those targeted by the Fund. To the extent the Other Managed Funds have overlapping investment objectives, the scope of opportunities otherwise available to the Fund may be adversely affected and/or reduced. Additionally, certain employees of the Advisors and their management may face conflicts in their time management and commitments as well as in the allocation of investment opportunities to other Ares funds.

The results of the Fund's investment activities may differ significantly from the results achieved by the Other Managed Funds. It is possible that one or more of such funds will achieve investment results that are substantially more or less favorable than the results achieved by the Fund. Moreover, it is possible that the Fund will sustain losses during periods in which one or more affiliates achieve significant profits on their trading for proprietary or other accounts. The opposite result is also possible. The investment activities of one or more Advisor affiliates for their proprietary accounts and accounts under their management may also limit the investment opportunities for the Fund in certain markets.

The Advisors may determine that the Fund should invest on a side-by-side basis with one or more Other Managed Funds. In certain circumstances, negotiated coinvestments may be made only in accordance with the terms of the exemptive order Ares received from the SEC (the "<u>Order</u>"). Co-investments made under the Order are subject to compliance with the conditions and other requirements contained in the Order, which could limit the Fund's ability to participate in a co-investment transaction.

In the event investment opportunities are allocated among the Fund and Other Managed Funds, we may not be able to structure our investment portfolio in the manner desired. Although the Advisors endeavor to allocate investment opportunities in a fair and equitable manner, the Fund is not generally permitted to co-invest in any portfolio company in which a fund managed by Ares or any of its downstream affiliates (other than the Fund and its downstream affiliates) currently has an investment. However, the Fund may co-invest with funds managed by Ares or any of its downstream affiliates, subject to compliance with existing regulatory guidance, applicable regulations and its allocation procedures.

From time to time, the Fund and the Other Managed Funds may make investments at different levels of an issuer's capital structure or otherwise in different classes of an issuer's securities. Such investments may inherently give rise to conflicts of interest or perceived conflicts of interest between or among the various classes of securities that may be held by such entities.

The Advisors, their affiliates and their clients may pursue or enforce rights with respect to an issuer in which the Fund has invested, and those activities may have an adverse effect on the Fund. As a result, prices, availability, liquidity and terms of the Fund's investments may be negatively impacted by the activities of the Advisors and their affiliates or their clients, and transactions for the Fund may be impaired or effected at prices or terms that may be less favorable than would otherwise have been the case.

The Advisors may enter into transactions and invest in securities, instruments and currencies on behalf of the Fund in which customers of its affiliates, to the extent permitted by applicable law, serve as the counterparty, principal or issuer. In such cases, such party's interests in the transaction could be adverse to the interests of the Fund, and such party may have no incentive to assure that the Fund obtains the best possible prices or terms in connection with the transaction. In addition, the purchase, holding and sale of such investments by the Fund may enhance the profitability of the Advisors or their affiliates. One or more affiliates may also create, write or issue Derivatives for their customers, the underlying securities, currencies or instruments of which may be those in which the Fund invests or which may be based on the performance of the Fund. The Fund may, subject to applicable law, purchase investments that are the subject of an underwriting or other distribution by one or more Advisors affiliates and may also enter into transactions with other clients of an affiliate where such other clients have interests adverse to those of the Fund.

The Fund will be required to establish business relationships with its counterparties based on the Fund's own credit standing. Neither the Advisors nor any of their affiliates will have any obligation to allow its credit to be used in connection with the Fund's establishment of its business relationships, nor is it expected that the Fund's counterparties will rely on the credit of the Advisors or their affiliates in evaluating the Fund's creditworthiness.

The Advisors are paid a fee based on a percentage of the Fund's Managed Assets. The participation of the Advisors' investment professionals in the valuation process could therefore result in a conflict of interest. The Advisors also may have a conflict of interest in deciding whether to cause the Fund to incur leverage or to invest in more speculative investments or financial instruments, thereby potentially increasing the assets or the yield of the Fund and, accordingly, the Management Fees or Incentive Fees (as such terms are defined in the Fund's Prospectus) received by the Advisors. Certain other Ares-advised funds pay the Advisors or their affiliates performance-based compensation, which could create an incentive for the Advisors or affiliate to favor such investment fund or account over the Fund.

By reason of the various activities of the Advisors and their affiliates, the Advisors and such affiliates may acquire confidential or material non-public information or otherwise be restricted from purchasing certain potential Fund investments that otherwise might have been purchased or be restricted from selling certain Fund investments that might otherwise have been sold at the time.

The Advisors have adopted policies and procedures designed to prevent conflicts of interest from influencing proxy voting decisions made on behalf of advisory clients, including the Fund, and to help ensure that such decisions are made in accordance with its fiduciary obligations to clients. Nevertheless, notwithstanding such proxy voting policies and procedures, actual proxy voting decisions may have the effect of favoring the interests of other clients, provided that the Advisors believe such voting decisions to be in accordance with its fiduciary obligations.

(a)(3) Compensation Structure of Portfolio Manager(s) or Management Team Members

The Advisors' financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors. The portfolio managers may receive, all or some combination of, salary, an annual bonus and interests in the carried interest in certain of Ares' funds.

Base Compensation.

Generally, when the Portfolio Managers receive base compensation from the Advisors it is based on their individual seniority and their position within the firm.

Discretionary Compensation.

In addition to base compensation, the Portfolio Managers may receive discretionary compensation from the Advisors. Discretionary compensation may be based on individual seniority and contribution.

(a)(4) Ownership of Securities

The following table sets forth, for each Portfolio Manager, the aggregate dollar range of the Fund's equity securities beneficially owned as of December 31, 2019.

Portfolio Manager	Dollar Range of Fund Shares Beneficially Owned
Mitch Goldstein	None
Greg Margolies	None

(b) Not applicable.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

None during the period covered by this Form N-CSR filing pursuant to a plan or program.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Trustees during the period covered by this Form N-CSR filing.

Item 11. Controls and Procedures.

(a) The Fund's principal executive and principal financial officers have concluded that the Fund's disclosure controls and procedures (as defined in Rule 30a-3(c) under the 1940 Act) (17 CFR 270.30a-3(c)) are effective, as of a date within 90 days of the filing date of this Form N-CSR based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the 1934 Act, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).

(b) There were no changes in the Fund's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting.

Item 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Companies.

- (a) Not applicable.
- (b) Not applicable.

Item 13. Exhibits.

- (a)(1) Code of Ethics is attached hereto in response to Item 2(f).
- (a)(2) The certifications required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) are attached hereto.
- (a)(3) Not applicable.
- (a)(4) Not applicable.
- (a)(5) Proxy voting policies and procedures of the Fund and its investment adviser are attached hereto in response to Item 7.
- (b) The certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)) and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Fund has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Sarbanes-Oxley Code of Ethics

The Board of the Fund has established this Code in accordance with the Sarbanes-Oxley Act of 2002 and the rules promulgated thereunder. This Code applies to the Fund's Principal Executive Officer ("President") and Principal Financial Officer ("Treasurer") (together, the "Covered Officers") for the purpose of promoting:

- honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
- full, fair, accurate, timely and understandable disclosure in reports and documents that the Fund files with, or submits to, the Securities and Exchange Commission ("SEC") and in other public communications made by the Fund;
- compliance with applicable laws and governmental rules and regulations;
- the prompt internal reporting of violations of the Code to an appropriate person or persons identified in the Code; and
- accountability for adherence to the Code.

Each Covered Officer should adhere to a high standard of business ethics and should be sensitive to situations that may give rise to apparent as well as actual conflicts of interest.

Overview. A "conflict of interest" occurs when a Covered Officer's private interest interferes with the interests of, or his or her service to, the Fund. For example, a conflict of interest would arise if a Covered Officer, or a member of his or her family, receives improper personal benefits as a result of his or her position with the Fund. Under no circumstances should a Covered Officer have any undisclosed or unapproved financial or other business relationship with the Fund or a third party that might impair or might by viewed as impairing the exercise of the Covered Officer's best judgment with respect to matters involving the Fund.

Certain conflicts of interest arise out of the relationships between Covered Officers and the Fund and already are subject to conflict of interest provisions in the 1940 Act. For example, Covered Officers may not individually engage in certain transactions (such as the purchase or sale of securities or other property) with the Fund because of their status as "affiliated persons" of the Fund. Each Covered Officer is an employee of the Fund's Adviser or its affiliates. The Fund's and the Adviser's compliance programs and procedures are designed to prevent, or identify and correct, violations of these provisions. This Code does not, and is not intended to, repeat or replace these programs and procedures, and such conflicts fall outside of the parameters of this Code.

Although typically not presenting an opportunity for improper personal benefit, conflicts may arise from, or as a result of, the contractual relationship between the Fund and the Adviser, of which the Covered Officers are also officers or employees. As a result, this Code recognizes that the Covered Officers will, in the normal course of their duties (whether formally for the Fund or for the Adviser, or for both), be involved in establishing policies and implementing decisions that will have different effects on the Adviser and the Fund. The participation of the Covered Officers of their duties is inherent in the contractual relationship between the Fund and the Adviser and is consistent with the performance by the Covered Officers of their duties as officers of the Fund. Thus, if performed in conformity with the provisions of the 1940 Act, will be deemed to have been handled ethically. In addition, it is recognized by the Board that the Covered Officers may, from time to time, also be officers or employees of one or more other investment companies covered by this Code or other codes.

Other conflicts of interest are covered by the Code, even if such conflicts of interest are not subject to provisions in the 1940 Act. The following list provides examples of conflicts of interest under the Code, but Covered Officers should keep in mind that these examples are not exhaustive. The overarching principle is that the personal interest of a Covered Officer should not be placed improperly before the interest of the Fund.

Each Covered Officer must:

- not use his personal influence or personal relationships improperly to influence investment decisions or financial reporting by the Fund whereby the Covered Officer would benefit personally to the detriment of the Fund;
- not cause the Fund to take action, or fail to take action, for the individual personal benefit of the Covered Officer rather than for the benefit of the Fund; and
- not use material non-public knowledge of portfolio transactions made or contemplated for the Fund to trade personally or cause others to trade personally in contemplation of the market effect of such transactions.

There are some relationships that should always be disclosed to the CCO of the Fund, including:

- A. Any ownership interest in, or any consulting or employment relationship with, any entities doing business with the Fund, other than an affiliated service provider or an affiliated of an affiliated service provider. This disclosure requirement shall not apply to or otherwise limit the ownership of publicly traded securities so long as the Covered Officer's ownership does not exceed more than 1% of the outstanding securities of the relevant class.
- B. A direct or indirect financial interest in commissions, transaction charges or spreads paid by the Fund for effecting portfolio transactions or for selling or redeeming shares other than an interest arising from the Covered Officer's employment with an affiliated service provider or its affiliates. This disclosure requirement shall not apply to or otherwise limit (i) the ownership of publicly traded securities so long as the Covered Officer's ownership does not exceed more than 1% of a particular class of security outstanding or (ii) the receipt by an affiliated service provider or its affiliates of research or other benefits in exchange for "soft dollars".

As a registered investment company, it is of critical importance that the Fund's public communications, reports, and SEC filings contain full, fair, accurate, timely, and understandable disclosure. Accordingly, each Covered Officer is expected to consider it central to his or her duties and responsibilities to the Fund to promote full, fair, accurate, timely, and understandable disclosure in the Fund's public communications and reports, and in the documents that the Fund files with, or submits to, the SEC. In this regard, the Fund has adopted Disclosure Controls and Procedures that, "under the supervision and oversight" of the Covered Officers, are designed to ensure that all information the Fund is required to disclose in its annual and semi-annual reports filed with the SEC is recorded, processed, summarized and reported within the time periods specified by the SEC under its rules and regulations.

In addition to adhering to the specific requirements set forth in the Fund's Disclosure Controls and Procedures and all applicable governmental laws, rules and regulations, each Covered Officer shall exercise a high standard of care in complying with the Fund's Internal Controls, and in preparing and providing all necessary information to make the Fund's public reports, communications, and SEC filings and submissions complete, fair, and understandable.

Accordingly, each Covered Officer must not knowingly misrepresent or cause others to misrepresent facts about the Fund. In addition, each Covered Officer must seek to ensure that all of the Fund's books, records, accounts and financial information, as well as reports produced from those materials:

- 1. Are supported by accurate documentation maintained in reasonable detail;
- 2. Are recorded in the proper account and in the proper accounting period;
- 3. Do not contain any false or intentionally misleading entries;
- 4. Fairly and accurately reflect the transactions or occurrences to which they relate; and
- 5. Conform to the Fund's Internal Controls, Disclosure Controls and Procedures, and to all applicable laws, rules and regulations.

- I, Michael A. Reisner, Co-President and Chief Executive Officer of CION Ares Diversified Credit Fund (the "Fund"), certify that:
- 1. I have reviewed this report on Form N-CSR of the Fund;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations, changes in net assets, and cash flows (if the financial statements are required to include a statement of cash flows) of the Fund as of, and for, the periods presented in this report;
- 4. The Fund's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) and internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) for the Fund and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Fund, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the Fund's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of a date within 90 days prior to the filing date of this report based on such evaluation; and
 - (d) Disclosed in this report any change in the Fund's internal control over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting; and
- 5. The Fund's other certifying officer(s) and I have disclosed to the Fund's auditors and the audit committee of the Fund's board of trustees (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Fund's ability to record, process, summarize, and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Fund's internal control over financial reporting.

Proxy Voting Policy

It is the policy of the Fund to delegate the responsibility for voting proxies relating to portfolio securities held by the Fund to the Fund's investment adviser (the "Adviser") as a part of the Adviser's general management of the Fund's portfolio, subject to the continuing oversight of the Board. The Board hereby delegates such responsibility to the Adviser, and directs the Adviser to vote proxies relating to portfolio securities held by the Fund consistent with the duties and procedures set forth below. The Adviser may retain one or more vendors to review, monitor and recommend how to vote proxies in a manner consistent with the duties and procedures set forth below, to ensure that such proxies are voted on a timely basis and to provide reporting and/or record retention services in connection with proxy voting for the Fund.

The right to vote a proxy with respect to portfolio securities held by the Fund is an asset of the Fund. The Adviser, to which authority to vote on behalf of the Fund is delegated, acts as a fiduciary of the Fund and must vote proxies in a manner consistent with the best interest of the Fund and its shareholders. In discharging this fiduciary duty, the Adviser must maintain and adhere to its policies and procedures for addressing conflicts of interest and must vote proxies in a manner substantially consistent with its policies, procedures and guidelines, as presented to the Board.

The shall file an annual report of each proxy voted with respect to portfolio securities of the Fund during the twelve-month period ended June 30 Form N-PX not later than August 31 of each year.

Proxy Voting Procedures

The following are the procedures adopted by the Board for the administration of the policy:

<u>Review of Adviser Proxy Voting Procedures</u>. The Adviser shall present to the Board its policies, procedures and other guidelines for voting proxies at least annually, and must notify the Board promptly of material changes to such policies, procedures and guidelines.

<u>Voting Record Reporting</u>. The Adviser shall provide the voting record information necessary for the completion and filing of Form N-PX to the Fund at least annually. Such voting record information shall be in a form acceptable to the Fund and shall be provided at such time(s) as required for the timely filing of Form N-PX and at such additional time(s) as the Fund and the Adviser may agree to from time to time. With respect to those proxies that the Adviser has identified as involving a conflict of interest, the Adviser shall submit a separate report indicating the nature of the conflict of interest and how that conflict was resolved with respect to the voting of the proxy.

<u>Record Retention</u>. The Adviser shall maintain such records with respect to the voting of proxies as may be required by the Investment Advisers Act of 1940, as amended, and the rules promulgated thereunder or by the Investment Company Act of 1940, as amended, and the rules promulgated thereunder.

<u>Conflicts of Interest</u>. Any actual or potential conflicts of interest between the Fund's principal underwriter or Adviser and the Fund's shareholders arising from the proxy voting process will be addressed by the Adviser and the Adviser's application of its proxy voting procedures pursuant to the delegation of proxy voting responsibilities to the Adviser. In the event that the Adviser notifies the officer(s) of the Fund that a conflict of interest cannot be resolved under the Adviser's proxy voting procedures, such officer(s) are responsible for notifying the audit committee of the Board (the "Audit Committee") of such irreconcilable conflict of interest and assisting the Audit Committee with any actions it determines are necessary.

Form N-PX. The Fund shall file an annual report of each proxy voted with respect to portfolio securities of the Fund during the twelve-month period ended June 30 on Form N-PX not later than August 31 of each year.

Disclosures.

The Fund shall include in its registration statement:

- A description of this policy and of the policies and procedures used by the Adviser to determine how to vote proxies relating to portfolio securities; and
- A statement disclosing that information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, upon request, by calling the Fund's toll-free telephone number, or through a specified Internet address, or both, and on the Securities and Exchange Commission's (the "SEC") website.

The Fund shall include in its annual and semi-annual reports to shareholders:

- A statement disclosing that a description of the policies and procedures used by or on behalf of the Fund to determine how to vote proxies relating to portfolio securities of the Fund is available without charge, upon request, by calling the Fund's toll-free telephone number, through a specified Internet address, if applicable, and on the SEC's website; and
- A statement disclosing that information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, upon request, by calling the Adviser's toll-free telephone number, or through a specified Internet address, or both, and on the SEC's website at <u>www.sec.gov</u>.

The Board shall review and amend these Procedures as it deems necessary and advisable.

Proxy Voting

Rule 206(4)-6 under the Advisers Act prohibits a registered investment adviser from exercising voting authority with respect to client voting securities unless the adviser has adopted and implemented written Policies and Procedures that are reasonably designed to ensure that the adviser votes proxies in the best interests of its clients.

In addition, the adviser must describe its proxy voting Procedures to its clients and provide copies upon request, and must disclose to its clients how they may obtain information on how the adviser voted their proxies.

Rule 204-2 of the Advisers Act requires a registered investment adviser to retain certain records in connection with the proxy voting Procedures adopted by Ares.

Ares focuses primarily on fixed income securities and bank debt, but clients may also acquire voting securities. In instances where a client owns equity securities in which it has the right to vote via shareholder proxy (each a "Voting Security"), Ares generally retains proxy voting authority with respect to these Voting Securities. Ares recognizes that proxy voting is an important right of shareholders and that reasonable care and diligence must be undertaken to ensure that such rights are properly and timely exercised.

Accordingly, Ares has adopted the following Proxy Voting Policies and Procedures for the purpose of complying and implementing compliance with Rules 206(4)-6 and 204-2.

Proxy Voting Policies

Where Ares has been granted discretion by a Client to exercise by proxy the voting rights of securities beneficially owned by such Client (the "Client Securities"), Ares will exercise all voting rights delegated to us by the Client with respect to Client Securities, except as provided in this Manual.

In determining how to vote, investment professionals of Ares will consult with each other, taking into account the interests of each Client and its Investors as well as any potential conflicts of interest. In general, Ares will vote proxies in accordance with the guidelines set out below, which are designed to maximize the value of Client Securities (the "Guidelines"), unless any of the following is true:

- · Ares' agreement with the Client requires it to vote proxies in a certain way
- · Ares has determined otherwise due to the specific and unusual facts and circumstances with respect to a particular vote
- the subject matter of the vote is not covered by the Guidelines
- · a material conflict of interest is present
- · Ares finds it necessary to vote contrary to the Guidelines to maximize Investor value or the best interests of the Client

In the absence of Guidelines with respect to a particular matter, Ares will vote proxies so as to maximize the economic value of the Client Securities and otherwise serve the best interests of each Client. Ares will follow the Procedures with respect to conflicts of interests described below.

Proxy Voting Procedures

Voting Client Proxies

Subject to the Proxy Voting Policies stated above, Ares will generally use the following guidelines in reviewing proxy issues:

- Elections of Directors In general, Ares will vote in favor of the management-proposed slate of directors. If there is a proxy fight for seats on the board of directors of an issuer of Client Securities (an "Issuer") or Ares determines that there are other compelling reasons for withholding the Client's vote, it will determine the appropriate vote on the matter. Among other reasons, Ares may withhold votes for directors when any of the following are true:
 - Ares believes a direct conflict of interest exists between the interests of a director and the stockholders
 - Ares concludes that the actions of a director are unlawful, unethical, or negligent
 - Ares believes a director is entrenched or dealing inadequately with performance problems or is acting with insufficient independence between the board and management
 - Ares believes that, with respect to directors of non-US issuers, there is insufficient information about the nominees disclosed in the proxy statement
- Appointment of Auditors As Ares believes that an Issuer remains in the best position to choose its independent auditors, Ares will generally support management's recommendation in this regard.
- Changes in Capital Structure Changes in the charter or bylaws of an Issuer may be required by state or federal regulation. In general, Ares will cast a Client's votes
 in accordance with the management on such proposals. However, Ares will consider carefully any proposal regarding a change in corporate structure that is not
 required by state or federal regulation.
- Corporate Restructurings; Mergers and Acquisitions As Ares believes that proxy votes dealing with corporate reorganizations are an extension of the investment decision, Ares will analyze such proposals on a case-by-case basis and vote in accordance with its perception of each Client's interests.

Ares Global Ethics and Compliance Manual — September 6, 2016 — Page 51

- Proposals Affecting Shareholder Rights Ares will generally cast a Client's votes in favor of proposals that give shareholders a greater voice in the affairs of an Issuer and oppose any measure that seeks to limit such rights. However, when analyzing such proposals, Ares will balance the financial impact of the proposal against any impairment of shareholder rights as well as of the client's investment in the Issuer.
- Corporate Governance As Ares recognizes the importance of good corporate governance, Ares will generally favor proposals that promote transparency and accountability within an Issuer.
- Anti-Takeover Measures Ares will evaluate, on a case-by-case basis, any proposals regarding anti-takeover measures to deter- mine the measure's likely effect on shareholder value dilution.
- Stock Splits Ares will generally vote with management on stock split matters.
- Limited Liability of Directors Ares will generally vote with management on matters that could adversely affect the limited liability of directors.
- Social and Corporate Responsibility Ares will review proposals related to social, political, and environmental issues to deter- mine whether they may adversely affect shareholder value. Ares may abstain from voting on such proposals where they do not have a readily determinable financial impact on shareholder value.
- Executive and Directors Compensation Ares will evaluate, on a case-by-case basis, any proposals regarding stock option and compensation plans. We will generally vote against any proposed plans that may result in excessive transfer of shareholder value, that permit the repricing of underwater options, or that include an option exercise price that is below the market price on the day of the grant. We will generally vote for proposals requiring top executive and director compensation for "golden parachutes" to be submitted for shareholder approval.

Some examples of potential conflicts of interest include:

- · Ares provides investment advice to an officer or director of an issuer and Ares receives a proxy solicitation from that issuer, or a competitor of that issuer
- an issuer or some other third party offers Ares or an Associate compensation in exchange for voting a proxy in a particular way
- · an Associate or a member of an Associate's household has a personal or business relationship with an issuer
- · an Associate has a beneficial interest contrary to the position held by Ares on behalf of its clients
- · Ares holds various classes and types of equity and debt securities of the same issuer contemporaneously in different Client portfolios
- · any other circumstance where Ares' duty to service its Clients' interest could be compromised

Recordkeeping

An officer of Ares will retain the following records pertaining to these proxy voting Policies and Procedures in accordance with Rule 204-2 under the Advisers Act:

- · proxy voting Policies and Procedures
- · all proxy statements received (or Ares may rely on proxy statements filed on the EDGAR system of the SEC)
- records of votes cast
- records of requests for proxy voting information by Clients and a copy of any written response by Ares to any Client request on how Ares voted proxies on behalf of the requesting Client
- · any specific documents prepared or received in connection with a decision on a proxy vote

If Ares uses an outside service, it may rely on such service to maintain copies of proxy statements and records, so long as the service will provide a copy of such documents promptly upon request.

Disclosure

Ares will inform each Client of the proxy voting Policies and Procedures described here. Ares will inform each client of any changes in Ares' proxy voting Policies and Procedures, and upon request Ares will promptly provide to a Client a copy of Ares' proxy voting Policies and Procedures as then in effect. A description of the proxy voting Policies and Procedures and the availability of a copy to a Client upon request are set forth in Ares' Form ADV Part 2A.

Conflicts of Interest

If a potential conflict of interest exists, Ares may choose to resolve the conflict by following the recommendation of a disinterested third party, by seeking the direction of each affected Client (which direction will be sought from the independent directors of ARCC where it is the affected Client) or, in extreme cases, by abstaining from voting. In any event, Ares will not delegate its voting authority to any third party, although it may retain an outside service to provide voting recommendations and to assist in analyzing votes.
